1. Overview and Background

a. Objective and overview

The objective of this exercise is to present a “concrete proposal for a rearranged annual workplan of the Executive Board for 2021.” This was requested by the Executive Boards of UNDP/UNFPA/UNOPS, UNICEF, and UN-Women in decisions taken by their Boards (detailed below). The aim is to improve the overall efficiency and oversight of the Boards, which is also in line with requests of GA resolution 71/243 on the QCPR and GA resolution 72/279 on repositioning of the UN Development System.

This paper is organized in the following 3 sections:

- **I: Objective and background:** provides the details of the most recent Board decisions requesting this latest information from the Board Secretariats, and this section also provides background on the history of the Board decisions and related actions taken (including reports produced) on the topic of working methods of the Executive Boards.
- **II: Overview of proposed Annual Workplans for 2021:** Provides an overview of the proposed workplans for 2021 and what has shifted, including a description of harmonization efforts across the agencies, and a comparative analysis of implications on items for decision, overall costs, efficiency & oversight.
- **III: Proposed Annual Workplans, daily schedules, and informals for 2021:** Has the proposed annual workplans for 2021 for each Board, including the daily schedules and corresponding lists of informals.

b. Decision which mandated the production of this paper

During the First Regular Sessions of the Executive Boards of UNDP/UNFPA/UNOPS, UNICEF, and UN-Women in February 2020, the respective Boards adopted decisions on ‘Executive Board Working Methods’ (decision 2020/2 for UNDP/UNFPA/UNOPS; decision 2020/1 for UNICEF; decision 2020/1 for UN-Women) which requested the following (paragraphs below are from the UNDP/UNFPA/UNOPS Board decision as an example):

- *Para. 4:* Requests the secretariat of the Executive Board of UNDP/UNFPA/UNOPS, in collaboration with the secretariats of the Executive Boards of UNICEF and UN-Women, to submit to Member States, ahead of the annual session 2020, with a view to conclude discussions on the working methods no later than the second regular session, a concrete proposal for a rearranged annual workplan of the Executive Board for 2021, which includes daily schedules of the three sessions and informal consultations, supported by a detailed comparative analysis of potential implications on items for decisions, overall costs, efficiency and oversight, with a view to reducing the workload of the second regular session by shifting agenda items among formal sessions, as appropriate;
- *Para. 5:* Further recalls decision 2018/22 and stresses the need to continue to harmonize the consideration of common agenda items across the respective Executive Board agendas and requests the secretariat of the

Executive Board of UNDP/UNFPA/UNOPS, in collaboration with the secretariats of the Executive Boards of UNICEF and UN-Women, to reflect it in the proposal of a rearranged workplan for 2021.

The Secretariats of the Executive Boards of UNDP/UNFPA/UNOPS, UNICEF, and UN-Women have thus produced this joint concrete proposals for the consideration of their respective Executive Boards in advance of their respective Annual Sessions in 2020.

2. Overview of Proposed Annual Workplans for 2021

a. Overview of workplans and shifting of agenda items

As requested by the respective Executive Boards of the NY based funds and programmes, these entities have undertaken a thorough consultation process to determine which items may be shifted from the Second Regular Session to either the First Regular or Annual Sessions of the Board. This was done with a view to reduce the workload of the Second Regular Session, at the request of the respective Boards. To this end, the Table 1 below shows the following:

- All the items from the Second Regular Session
- Which ones were shifted
- Where each item has been shifted (or retained)

Table 1: Shifting Agenda Items

As shown above, the agencies are proposed to move nearly 50% (5 out of 11) of all their Second Regular Session Board items to other formal sessions of the Board. And for items that are common/applicable to all the agencies², everything is proposed to be shifted except for the Strategic Plans and the budgets. This should help to ease the workload of the Second Regular Session. It should also be noted that 2021 is an exceptional year as it is the year of the approval of the Strategic Plans and Budgets for the agencies which takes place every 4 years³. Therefore, in other years, the Second Regular Session will have an even more reduced workload with the absence of these items, with a primary focus on the statements of the executive heads, Country Programme Documents, and Structured Funding Dialogues.

b. Harmonization across the workplans

The respective Boards have stressed the need to continue to harmonize the consideration of common agenda items across the respective Executive Board agendas. A “common agenda item” is understood as a statutory/mandated agenda item that appears on the agenda of all the Executive Boards (Strategic Plans, audit reports, etc.), with the relevant documentation prepared individually by each secretariat for its own Board. And ‘harmonization’ in this context is understood as having common agenda items addressed at the same session across the Boards. Bearing in mind these definitions, the Executive Board secretariats have identified a set of common agenda items under the same/similar subject names. In preparing the proposed workplans for 2021, the secretariats have looked at these common agenda items with the aim of achieving full harmonization. It should be noted that 2 non-statutory items have been added—UNDS reform and sexual harassment & SEA—in anticipation of the Boards requesting these items to be placed on the respective Board agendas. Table 2 below shows all the common agenda items across the agencies, and which ones have been harmonized.

This table shows that the common agenda items are fully harmonized, with all 16 out of the 16 agenda items achieving harmonization.

¹ The UNICEF Gender Action Plan is presented every 4 years in conjunction with the Strategic Plan and has thus been retained in the Second Regular Session. Also important to note, that the annual report on the implementation of the UNICEF Gender Action Plan is presented at the annual session every year.

² In Table 1, the items common to all the agencies are the field visits, SH/SEA, UNDS reform, Strategic Plans, and the budgets.

³ Please note that the budgets for UNDP, UNFPA, and UNICEF are approved every 4 years, but the budgets for UN-Women and UNOPS are biennial and are approved every 2 years.

For a more detailed view of the placement of these agenda items across the agencies, Table 3 below shows the following:

- Each column has the common agenda items which have been identified across the Executive Boards of UNDP/UNFPA/UNOPS, UNICEF, and UN Women
- Each row lists the 5 agencies and where each agenda item appears on their respective workplans: **F** = First Regular Session; **A** = Annual Session; **S** = Second Regular Session; **N/A** = Not applicable

Due consideration was given to ensuring coherence across the agencies and having a good balance between the formal Board sessions. The table above shows that with the proposed workplans for 2021, the agencies are fully harmonized across all the common agenda items. The agencies of course remain guided by their respective Boards on the final placement of these agenda items.

c. Shifting items: Comparative analysis of implications on items for decision, overall costs, efficiency & oversight

The Executive Board decisions from February 2020 referenced above by the Boards of UNDP/UNFPA/UNOPS, UNICEF, and UN-Women also requested a comparative of the implications on items for decision, overall costs, efficiency and oversight caused by the shifting of items from the Second Regular Session to other formal Board sessions. To this end, the agencies have prepared the table below which shows the implications

⁴ The Structured Funding Dialogue is usually based on reports from the agencies detailing funding situation from previous year, financial and funding forecasts and other financial information and is a common agenda item across UNDP, UNFPA, UNICEF, and UN-Women. Other financial documents not common to all agencies are also presented by the agencies during other sessions of the Board.

⁵ CPDs are not applicable to UN Women (or to UNOPS) but appear on the workplans of all the other Boards

⁶ This includes both each Board's field visit and the joint field visits. The joint field visit is a joint item and not for decision, so it could be also moved to the Joint Meeting of the Boards, which would also avoid redundant presentations across the Boards as the same report is presented in all 4 Boards (including WFP). It could thus create efficiencies and reinforce the joint nature of this item, which would also bring a field perspective to the JMB discussions without taking too much time in the agenda.

⁷ For UNICEF, the placement of the agenda item is indicative as it depends on the scheduling of the UNICEF Executive Board's field visit.

that the shifting of items has on decisions and also on the efficiency and oversight aspects of the Board. Implications on overall costs follow separately.

Table 4 therefore includes the following:

- Each of the 5 agenda items which have been shifted from the Second Regular Session to other formal sessions of the Boards: thematic evaluations, field visits, UNAIDS Programme Coordinating Board, sexual harassment & SEA, and UNDS reform
- To which session each of the items shifted, either First Regular or Annual Session
- Columns showing the implications of such shifting of items in the following areas: decisions, and efficiency and oversight.

Table 4: Implications of shifting items from the Second Regular Session to the First Regular or Annual Sessions

ITEM	WHERE DID IT SHIFT?	DECISIONS	EFFICIENCY & OVERSIGHT
THEMATIC EVALUATIONS	FIRST, ANNUAL	<ul style="list-style-type: none"> • No impact as the respective independent evaluation offices and programme teams do not foresee any evaluation decisions as being particularly time sensitive for any needed guidance in September. 	<ul style="list-style-type: none"> • <u>Efficiency</u>: Reviewing a few evaluations at once may allow for drawing linkages between cross-sectoral issues, and also allow for more focused engagement from capital-based experts focusing on evaluations • <u>Oversight</u>: While there would be 1 fewer formal Board session on thematic evaluations, the overall number of evaluations would not be reduced, UN system-wide evaluations may increase, and, in addition, further informal consultations can be added as needed throughout the year.
FIELD VISITS	FIRST	<ul style="list-style-type: none"> • No impact as this agenda item is not for decision 	<ul style="list-style-type: none"> • <u>Efficiency</u>: The timing of both the Board’s field visit and joint field visit are often planned for the first half of the year, with one of the considerations being the need to submit the field visit reports to the Board in July in time for the Sept. session. This often creates a very crowded Jan-June Board season. So

			<p>this allows for a more flexible and efficient use of the Board’s time with having the possibility of field visits later in the year as well. If the field visits occur earlier in the year, however, there would be a greater time delay between the visit and the review of the report if it is done in Jan/Feb of the following year.</p> <ul style="list-style-type: none"> • <u>Oversight</u>: No implications on oversight with the shift in the session this item is discussed.
UNAIDS PROGRAMME COORDINATING BOARD (PCB) MEETING REPORT	FIRST⁸	<ul style="list-style-type: none"> • No impact as this agenda item is not for decision 	<ul style="list-style-type: none"> • <u>Efficiency</u>: Harmonizing the timing among NY-based agencies would allow Member States to view broader synergies and complementarities with regards to the work of the co-sponsors and that of the Joint Programme, including better alignment with the annual PCB reporting cycle. • <u>Oversight</u>: There would be a closer and more timely oversight on such matters, with the most recent PCB meetings being discussed sooner by the Board.
SEXUAL HARASSMENT & SEXUAL EXPLOITATION & ABUSE (SEA)⁹	ANNUAL	<ul style="list-style-type: none"> • This agenda item is not always for decision and has been decided by the Boards on a case-by-case basis. In 2021, there are no foreseen issues related to whether this agenda item would require a decision in one session or another, as that is yet to be 	<ul style="list-style-type: none"> • <u>Efficiency</u>: In terms of addressing issues coherently, having this agenda item in the Annual Session will allow Board members to review priority SH/SEA issues in the context of the audit and ethics reports also discussed at this session. This item would, however, be discussed during the more crowded Annual Session for the Board of UNDP/UNFPA/UNOPS, so it may not have as much time for discussed allocated to it.

⁸ It should be noted that this item was already in the First Regular Session of the UNICEF Board. And the UN Women Board will be placing this item on their agenda for the first time in 2021.

⁹ As noted in section 2.b above, sexual harassment & SEA is a non-statutory/non-mandated item for the respective Boards.

		determined by the Boards.	<ul style="list-style-type: none"> • Oversight: Related to the above, having this item in the Annual Session with the audit and ethics items would allow the Board to have a more coherent oversight of all related issues. It would also allow for any questions about the annual certification on this topic.
UNDS REFORM¹⁰	ANNUAL	<ul style="list-style-type: none"> • This agenda item is not always for decision and has been decided by the Boards on a case-by-case basis. In 2021, there are no foreseen issues related to this agenda item that would require a decision in one session or another, as that is yet to be determined by the Boards. 	<ul style="list-style-type: none"> • Efficiency: Similar to the agenda item on SH/SEA, discussing UNDS reform issues at the same time as other agenda items such as the various annual reports, may be more efficient in terms of drawing relevant linkages to interrelated issues, as UNDS reform cuts across most topics, including QCPR reporting. Moreover, having all agencies address this topic at the annual session allows for Member States to focus at the same time on issues impacting all agencies. • Oversight: Addressing UNDS reform issues during the Annual Session will allow for more holistic oversight on such issues as they would be discussed at the same session as the annual results reporting of the agencies. Relevant outcomes from ECOSOC Operational Activities Segment could also enrich discussions in the Session.

Implications on Overall Costs:

In meeting the respective Boards’ requests to analyze the implications on overall costs by shifting items from the Second Regular Session, three categories were assessed:

1. **Formal sessions** (length/number of days)
2. **Informals** associated with each session (number of informals)

¹⁰ As noted in section 2.b above, it should be noted that UNDS reform is a non-statutory/non-mandated item for the respective Boards.

3. **Official documentation** (number of documents)

Changes in these categories were identified by comparing the 2021 workplans and the workplans implemented in 2019¹¹ —the most recent year of completed and standard work across all executive boards. The year 2020 was not taken into account in the comparisons due to the atypical and exceptional circumstances arising from the COVID-19 pandemic, which have affected the organization of the work of all boards.

This analysis determined that the only overall cost implication of the shifting of items from the Second Regular Session to the First and Annual Sessions was in the number of formal session days utilized. It was also determined that the shifting of items from the Second Regular Session was cost neutral and thus did not have any cost implications on the number of informals or documents produced.

It is important to note that this analysis produced other interesting findings on cost reductions, unrelated to the rearranged workplans proposed for 2021. Some of the differences identified between the two years compared are linked to substantive specificities of each workplan, such as documentation that either was mandated or not for that specific year, or informals that took place in 2019 which were deemed to not be relevant in 2021.. The information below further details these cost implications.

1. **Shifts in the length of the formal sessions: number of days**

Compared to 2019, the proposed annual workplans for 2021 could entail an aggregated reduction of 1 full day of formal sessions across all executive boards. This would amount to a total of \$478 in savings in terms of direct costs to the agencies, as the agencies only pay for webcasting services for the formal sessions, which amounts to \$239 for each 3 hour segment. The conferencing and interpretation services for formal sessions are absorbed by the UN Secretariat. So in terms of indirect costs that would be saved (borne by the UN Secretariat), this would - \$11,900¹², as that is the cost of a full day meeting.

It should be noted that the agencies aimed to be as efficient in possible in drafting the proposed 2021 workplans, and as such, were able to design the First and Annual Sessions in order to make better use of the time allocated. So as seen below, for example, the Executive Board of UNDP/UNFPA/UNOPS reduced the Second Regular Session by half a day, but due to greater efforts at scheduling efficiencies, did not need to increase the number of days in the First and Annual Sessions. Similarly, the Executive Board of UNICEF reduced the Second Regular Session by 1 day, but only needed to add half a day to the First Regular Session.

The following is the breakdown of the reductions in number of days for each Board:

- For the Executive Board of UNDP/UNFPA/UNOPS: a reduction of half a day in the second regular session.

¹¹ It should be noted that the number of days for the First Regular Session for the Executive Board of UNDP/UNFPA/UNOPS used was 4 (instead of 5 in 2019) as that is the current trend going forward.

¹²[A/74/250](#), *Organization of the seventy-fourth regular session of the General Assembly, adoption of the agenda and allocation of items*, First Report of the General Committee.

- For the Executive Board of UNICEF: An addition of half a day in the first regular session and reduction of a 1 day in the second regular session. It should be noted that the second regular session in 2019 included a half-day special focus session.
- For UN-Women: an addition of 1 day in the first regular session, and a reduction of 1 day in the second regular session.

2. Shifts in informals associated with each session: number of informals

There were no changes in the number of informals due to the shifting of items from the Second Regular Session to the First and Annual Sessions in the revised workplans for 2021. But it is interesting to note that this analysis showed that overall, compared to 2019, there is a potential reduction in 2021 of 13 informal consultations across all executive boards. This has amounted to a corresponding cost reduction of about \$6,045.00¹³. This is just an estimate, however, as the list of informals is always subject to change at the request of the respective Board Bureaux and Boards.

The following is the breakdown of the changes in number of informal meetings for each Board for potential informals in 2021 versus in 2019:

- Executive Board of UNDP/UNFPA/UNOPS: First regular session: same; Annual Session: 3 fewer; and Second regular session: 2 fewer. Total change: reduction in 5 informals.
- Executive Board of UNICEF: First regular session: 2 fewer; Annual session: 2 fewer; and Second regular session: 3 fewer. Total change: Reduction in 7 informals. It should be noted that the actual number of reduced informals would be 4, as in 2019, there were 3 additional informals on humanitarian action.
- Executive Board of UN-Women: First regular session: 4 more; Annual session: 5 fewer; Second regular session: same. Total change: Reduction in 1 informal.

3. Shifts in official documentation: number of documents

Similar to the number of informals, there were no shifts in the number of documents due to the shifting of items from the Second Regular Session to the First and Annual Sessions in the revised workplans for 2021. In terms of overall reductions in documents due to other factors, this has been fairly negligible with

¹³ Estimates have been based on the cost of conference room services with one technician for meetings of up to three hours (\$465.00).

only 1 official document reduced each for the Boards of UNDP/UNFPA/UNOPS and UN Women. The tables below indicate the comparison between 2019 and the estimates of official documents that can be anticipated for 2021 for each Board:

UNDP/UNFPA/UNOPS	2019	2021
First regular session	14	18
Annual session	31	25
Second regular session	18	19
Total	63	62

UNICEF	2019	2021
First regular session	8	8
Annual session	12	11
Second regular session	9	10
Total	29	29

UN-Women	2019	2021
First regular session	6	5
Annual session	5	8
Second regular session	6	3
Total	17	16

Country-programme documents (CPDs) have not been included in the comparison as their cycles and corresponding number for 2021 is not yet accurately known or predictable. Further, CPDs are not applicable in the case of UN-Women. The comparison does not include all types of non-official documents either, such as background or conferences room papers, as the needs for such papers are constantly evolving and often related to the request of each Board.

Justifications for not shifting certain agenda items from the Second Regular Session

Table 4 and the analysis of the overall costs above thus demonstrate the implications of the items that are proposed to be shifted from the Second Regular Session to the First Regular and Annual Sessions of the Board, but how about the items that have not shifted? As mentioned in section 2.a above, these items are the following: Strategic Plans; budgets; structured funding dialogue; Country Programme Documents; UNOPS Annual Statistical Report on the Procurement Activities of the UN System Organizations; and the UNICEF Gender Action Plan. Thorough consultations were undertaken with the technical leads on all of these agenda items from all the agencies, and after careful analysis, the technical experts determined that, for a number of reasons specific to each item, it would be most appropriate to continue to review and discuss these agenda items at the Second Regular Sessions of the respective Boards.

Table 5 therefore shows the following:

- Each of the 6 agenda items that have not been shifted from the Second Regular Sessions of the Boards: Strategic Plans; budgets; structured funding dialogue; Country Programme Documents; UNOPS Annual Statistical Report on the Procurement Activities of the UN System Organizations; and the UNICEF Gender Action Plan
- Justification for not shifting them in the proposed workplans for 2021

Table 5: Justifications for not shifting certain agenda items from the Second Regular Session

ITEM	JUSTIFICATION FOR NOT SHIFTING FROM THE SECOND REGULAR SESSION
STRATEGIC PLANS	<ul style="list-style-type: none"> The Strategic Plans of the 5 agencies are all reviewed and approved by the respective Executive Boards at the Second Regular Session every 4 years. Therefore, since these Plans do not overburden the Boards every year, and in order to not affect the current annual and mid-term reporting periods, it was determined to maintain the Strategic Plans in the Second Regular Session of the Boards.
BUDGETS	<ul style="list-style-type: none"> Similar to the above, the budgets of the agencies are not reviewed and approved every year. They are reviewed and approved in the Second Regular Sessions every 4 years for UNDP, UNFPA, and UNICEF, and every 2 years for UNOPS and UN Women. Therefore, since they do not overburden the Boards every year and in order to not affect the current annual and mid-term reporting periods, it was determined that it would be best to maintain the budgets in the Second Regular Session of the Boards. Moreover, it is important to present the budgets at the same time as the Strategic Plans. In addition, the Second Regular session is optimal in order to main the current SP and IB cycles.
STRUCTURED FUNDING DIALOGUE	<ul style="list-style-type: none"> The structured funding dialogue (SFD) reports reference issues such as the audited financial statements for the year immediately preceding it, in addition to the status of funding commitments and other issues, which may be too outdated for a presentation in the First Regular or Annual sessions of the <i>following year</i>. Keeping the structured funding dialogue discussion in the Second Regular Session would allow for more timely inputs from the internal audit reports presented at the Annual Session in the same year. If this item was moved to the First or Annual Sessions of the Board, there would be too much of time lag between these reports (i.e. the audit reports would be presented in the Annual Session, with the SFD items being discussed only the following First or Annual Session). In addition, the financial books do not close until April, meaning that full and complete documentation cannot be prepared sufficiently in time for the Annual Session. Having this item in the First or Annual Session the following year would mean there is a long time lag between when the books close and when the reports are presented. This may be a challenge for the Board, as the SFD is meant to help Board members make timely funding decisions during the year. Keeping the SFD in the Second Regular session would also keep them more aligned with the GA Fifth Committee discussions which could help in terms of coherence and any areas of joint relevance between those discussions. Some partners wish to make additional funding commitments before the end of the year and announce them at the Board, so not having the SFD at the Second Regular Session may have implications on the timing of such end-of-year decisions. .

COUNTRY PROGRAMME DOCUMENTS	<ul style="list-style-type: none"> • As we try to seek better alignment with UNSDCF, there is also an imperative to bear in mind different planning cycles of programme countries, including parliamentary approvals of the national plans and budgets, possible CPD extensions CPDs due to the impact of COVID-19, as well as other ad hoc extensions due to unforeseen crises, emergencies etc. Therefore, it is highly recommended to have the flexibility to present CPDs at each of the 3 sessions of the Board. Such flexibility would, in the event of delays in UNSDCF finalization, allow for more opportunities for the CPDs to be reviewed by the Boards • Shifting of CPDs from the Second Regular Session would also mean more CPDs before the First Regular and Annual sessions, much longer and/or multiple informals (in the case of the Board of UNDP/UNFPA/UNOPS)¹⁴, and longer formal sessions. We should also anticipate a potentially long implementation lag between an UNSDCF finalized in July, for example, and a CPD which can only be approved the following January. • Furthermore, regardless of when the CPDs are reviewed, it is also important to look ahead to the presentation of the CPDs during the formal and informal sessions. During the formal session, instead of individual presentations, consideration could be given to a more strategic presentation such as a short regional overview of key trends, opportunities, and challenges, overview of the agency's support etc. • In order to address the interest among programme countries to share, for official records, information about their CPDs, there could be concise presentations focusing on national priorities, agency support, expectations, comparative advantages, etc. • If this format were to achieve consensus, informal consultations then could have more in-depth discussions on individual CPDs, complemented by Member State comments during the online reviews.
UNOPS ANNUAL STATISTICAL REPORT ON UNITED NATIONS PROCUREMENT	<ul style="list-style-type: none"> • The Annual Statistical Report on United Nations Procurement includes procurement information from approximately 40 UN entities. Each agency prepares their annual procurement statistics between January and March each year, and submits them to UNOPS for collation and analysis. This process by UNOPS takes approximately two to three months, and therefore the earliest the report can be published by end June, subject to all participating agencies submitting accurate data on time. However, it is not possible to meet the document submission timelines of the Annual Session. Therefore the earliest the report can be presented to the Executive Board is the second session.
UNICEF GENDER ACTION PLAN	<ul style="list-style-type: none"> • The UNICEF Gender Action Plan is reviewed every 4 years in conjunction with the UNICEF Strategic Plan. Therefore, similar to what was indicated above about the Strategic Plans, since this Gender Action Plan does not overburden the Boards every year, and in order to not affect the current annual reporting period for this plan, it was determined that it would be best to maintain the UNICEF Gender Action Plan in the Second Regular Session of the UNICEF Board.

¹⁴ It should be noted that the issue of CPD informals in this section only applies to UNDP and UNFPA as UNICEF does not have CPD informals.

ANNEX 1: Background on previous decisions and papers produced

In General Assembly resolution 71/243 of 21 December 2016 on the quadrennial comprehensive policy review of operational activities for development of the United Nations System (QCPR), operational paragraph 46 stressed *“the need to enhance system-wide coherence and efficiency, reduce duplication and build synergy across governing bodies of the entities of United Nations development system”*, and called upon:

(a) The respective bureaux to initiate discussions on improving the working methods of the joint meetings of the Executive Boards so that they offer a platform for exchange on issues with cross-cutting impact;

(b) Member States to initiate discussions on the working methods of the respective governing bodies in order to improve the efficiency, transparency and quality of official sessions, ensure more systematic follow-up by the entities of the United Nations development system on issues raised by their governing bodies and ensure timely follow-up on the implementation of the present resolution; and

(c) Entities of the United Nations development system to adopt and abide by clear rules, including on the dissemination of all documents and draft decisions, thereby allowing adequate time for prior consultation with Member States in their decision-making processes.

In response to this request in QCPR OP46, the Presidents of the 2017 Executive Boards of the UNDP/UNFPA/UNOPS, UNICEF, UN-Women and WFP initiated discussions on the working methods of the Executive Boards, which resulted in a non-paper that was shared with the wider Board members in December 2017. This non-paper of the 2017 Presidents of the Executive Boards was the focus of an informal discussion entitled: *“Reflections on improving the working methods of the Executive Boards,”* at the 2018 joint meeting of the Executive Boards of the UNDP/UNFPA/UNOPS, UNICEF, UN-Women and WFP (JMB), held on 1 June 2018 at the United Nations Headquarters in New York.

Following the JMB session, a *“President’s Summary”* was incorporated in the final report of the 2018 JMB. This report reflected the outcomes of the discussions on working methods and provided an overview of issues aimed at improving the working methods of the Executive Boards. The working methods also formed part of the discussion of the United Nations development system reform, whereby Member States on 31 May 2018 in the General Assembly resolution 72/279 operational paragraph 21 *“takes [took] note of the proposal of the Secretary-General to gradually merge the New York-based Executive Boards of funds and programmes, and urges [urged] Member States to continue making practical changes to further enhance the working methods of the Boards with the aim of improving the efficiency, transparency and quality of governance structures, including through deciding on ways to improve the functions of the joint meeting of the Boards”*.

In the second regular sessions of 2018, the Executive Boards of UNDP/UNFPA/UNOPS, UNICEF, UN-Women, WFP respectively adopted decisions by which Member States requested the Bureaux of the Boards *“to launch a joint consultative process with Member States, with a view to examining the efficiency and quality of its current sessions, as well as the functions of the joint meeting of the Boards.”* The Presidents of the four Executive Boards met on 5 November 2018 to follow up on the implementation of the Boards’ decisions and agreed to form a Core Group to efficiently lead the discussion forward in consultation with the respective regional groups. The aim of the formation of the Core Group by the Presidents of the four Executive Boards

was to make the joint consultative process as open, transparent and inclusive as possible while ensuring the efficiency of the process. As its main deliverable, the Core Group was expected to produce a written account to be presented at the 2019 joint meeting of the Boards for subsequent consideration of its findings and suggestions for improving the working methods of the respective Boards.

For the composition of the Core Group, two Member States were designated from each regional group representing the Bureau and Executive Boards of the relevant funds and programmes. The Core Group produced a draft procedural decision submitted to the Executive Boards for negotiation at the 2019 first regular session. As a result, in January and February 2019, each respective Executive Board adopted procedural decisions. The decisions:

- Took note with appreciation of the formation of the Core Group of Member States to lead the joint consultative process with Member States, in an open, transparent and inclusive manner, with a view to examining the efficiency and quality of its current sessions, as well as the functions of the joint meetings of the Boards, building on the joint response prepared by the secretariats, and in close consultation with all Member States, seeking Member States' input to the written account of the Core Group;
- Requested the Executive Board secretariats to support the Core Group, upon request, in analysing the effects of its findings and suggestions;
- Looked forward to the written account of the Core Group, to be presented at the joint meeting of the Boards in May 2019, for subsequent consideration of its findings and recommendations by the members and observers of the respective Executive Boards of UNDP/UNFPA/UNOPS, UNICEF, UN-Women and WFP.

The written account of the Core Group was presented at the joint meeting of the Boards in May 2019. Subsequently, the Executive Boards adopted the following decisions: 2019/16 (UNDP/UNFPA/UNOPS), 2019/9 (UNICEF), in which they agreed on a number of measures to continue improving the working methods of the Executive Boards with regard to the conduct of business; organization of the sessions, including proposals to increase interactivity; improving gender parity in the composition of panelists; harmonization of common issues, including criteria for field visits; increased coordination, smooth transition between outgoing and incoming Bureau members; monitoring systems to track the implementation of Board decision; joint online calendar; etc.

The Executive Boards also requested the secretariats of all the Boards to present, at their respective second regular sessions in 2019, initial proposals to improve the working methods of the joint meeting of the Boards, including an optimal timing for convening the joint meeting of the Boards; propose different alternatives of adjusting the date of the second regular session, mindful that it does not overlap with the other schedules; and to present practical proposals for improving the efficiency of the sessions of the Executive Board, including reviewing the agenda items and the efficient consideration of these.

In follow-up to the joint response from the secretariats, the Executive Boards adopted a new decision in September 2019, namely 2019/22 (UNDP/UNFPA/UNOPS), 2019/13 (UN-Women), and 2019/20 (UNICEF), requesting the secretariats to present to the Executive Board for deliberation and consideration at the first regular session of 2020 an example of an annual programme of work, including informal briefings, for each of the three options presented in the joint response, with corresponding explanatory narratives on the

envisaged changes and their expected effect on Board oversight, effectiveness and efficiency, as well as further elaboration on the listed issues of joint relevance and interest to all Boards.¹⁸

This documentation was presented to the respective Executive Boards of UNDP/UNFPA/UNOPS, UNICEF, and UN-Women in February 2020 as part of a 'Joint Response of the Executive Board Secretariats,' and the Boards determined that more information was required in order to make decisions on the way forward. The focus would be on presenting proposed 2021 workplans, and to this end, as mentioned in section (a) above, the respective decisions made the following requests:

- "...a concrete proposal for a rearranged annual workplan of the Executive Board for 2021, which includes daily schedules of the three sessions and informal consultations, supported by a detailed comparative analysis of potential implications on items for decisions, overall costs, efficiency and oversight, with a view to reducing the workload of the second regular session by shifting agenda items among formal sessions, as appropriate."
- "...stresses the need to continue to harmonize the consideration of common agenda items across the respective Executive Board agendas and requests the secretariat of the Executive Board of UNDP/UNFPA/UNOPS, in collaboration with the secretariats of the Executive Boards of UNICEF and UN-Women, to reflect it in the proposal of a rearranged workplan for 2021."

And as also indicated in the previous section, the respective Board decisions requested this information to be provided "ahead of the annual session 2020, with a view to conclude discussions on the working methods no later than the second regular session."

¹⁸ It should be noted that the WFP Executive Board, in decision [2019/EB.A/8](#) adopted at its annual session in June 2019, emphasized that it remained committed to formulating and implementing joint working methods unless they were, due to the operational mandate of WFP, its institutional set-up or its Rome-based context (e.g. the Rome-based agency calendar, Rome-based agency collaboration), not applicable or relevant for WFP.
