NDC Implementation and SDG8
the Future of Work

Cristina Martinez, Senior Environment & Decent Work Specialist, Regional Office for Asia and the Pacific.
Asia – Pacific is transitioning to a low carbon economy...

The ILO estimates that **14.2 million** jobs could be added in the region by **2030** if countries adopt changes in energy use that limit global warming to **2°C**.

ILO (2018) Greening with Jobs, WESO report
Supporting the NDCs Implementation
The Just Transition Partnership (ILO)

1. Social dialogue and consensus building
   - Output: Governments, enterprises, workers, communities reach social consensus on just transition pathways

2. Research and knowledge
   - Output: Governments, the private sector and social partners share a common positive narrative about just transition

3. Skills strategies for job creation and job transitions
   - Output: Enterprises and workers have skills required for smooth transitions in labour markets

4. Social protection policies
   - Output: Workers and communities negatively impacted are protected through existing and new social protection mechanisms

5. Financing for a just transition
   - Output: Platforms of knowledge sharing and peer learning
Promoting green-decent jobs.

changing lives in Asia Pacific
