Gender inclusion in Ecuador NDC

The NDC was designed with gender mainstreaming, which implies preparation, development, implementation, monitoring and evaluation of policies and initiatives with the aim of promoting equality.

<table>
<thead>
<tr>
<th>Mitigation:</th>
<th>Adaptation:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Within the 5 sectors prioritized in the NDC, the transversal axes of intersectionality, participation and the gender approach were applied.</td>
<td>The gender mainstreaming was introduce during the formulation process of the sector prioritize in adaptation.</td>
</tr>
<tr>
<td>It consider women and men approaches at all levels and sectors.</td>
<td>With this experience, the National Adaptation Plan seeks to build enabling conditions for the integration of climate risk into development planning within a gender perspective.</td>
</tr>
</tbody>
</table>
This committee is formed by 11 government institutions and its decisions have the approval of Presidency and Vice-presidency.

Institutional frameworks and coordination mechanisms already in place for gender responsive climate action (or possible options for coordination).

All the political guidance approved by CICC is implemented in local governments through the Ecuadorian Municipal Association AME and Consortium of provincial governments CONGOPE.
Thanks!!
