Linkage between NDC and national MRV: Macedonian Example

Pavlina Zdraveva, UNDP

March 2020
From scratch to a systematic approach

- GSP regional support
- National gender and climate change action plan
- Made it to Macedonian Parliament
- Climate Promise

‘What’s gender got to do with climate change?’ - A lot more than you might think

Elena Grozdanova and Teodora Obradovic Grncarovska
1. National institutions for MRV are strengthened and transparency activities are aligned with country priorities
Output 1.4: Capacity to ensure gender equality and equity in climate change projects increased

2. Organizations and individuals have the necessary training and tools to conduct MRV activities
Output 2.4: Research and training on climate change and gender developed and disseminated

3. Arrangements for data collection, analysis, and reporting shift from a project-based cycle to a continuous process
Output 3.4: Gender-sensitive measurement and reporting established

Macedonian experience
Shift the focus for fresh ideas and perspectives

Effective implementation

- Ensuring efficient implementation, monitoring and evaluation through well selected gender indicators;
- Support gathering/analyzing gender-disaggregated data in the area of climate change;
- Appropriate budget reallocation for implementing the policies;
- Synchronizing the policies on gender and climate change;
- Introduce a new strategic goal for the Gender and Climate Change in Gender Equality Strategy
- Classification of vulnerable groups, and gender based vulnerabilities to climate change
- Innovative tools

Learning & Training

- Training module on introducing gender into CC developed
- E-training on gender amended with climate change
- Inter-institutional and inter and intra departmental cooperation
- Gender and climate change ambassadors
- Creating a register of persons working in the field of gender equality and climate change at the administrative level
- Exchange of experience - Study tour

- Inter-intra institutional cooperation

Macedonian experience
Macedonian revised NDC

Supported by UNDP Climate Promise
Developing gender responsive climate policies not only gender sensitive
ENABLE SYNCHRONISED AND SYSTEMIC IMPLEMENTATION

Of the gender and climate change action plan
revised NDC

**Build political will, national ownership and engagement**

Policy dialogues with the key national stakeholders (key ministries, local governments, CSOs, academia, private sector)

**Engage youth**

Use innovative approaches

**Promote leadership roles for women & men in climate action**

Capture country specific examples from field: Agriculture, Health, Transport, Tourism, Financing, Economy, Education, Green Jobs

Leave no one behind - just transition

**Transparency**

Support development of procedures for collection of gender disaggregated data and tracking progress of implementation of gender relevant activities

**Efficient implementation**

Conduct a gender analysis of the NDC to better identify, understand, and describe relevance of gender differences for climate policies and actions proposed

**Finance**

Articulate potential funding sources for gender relevant NDC actions.

Older women suffer greater impact of climate change

Human activities, especially the use of fossil fuels, are the main reasons for the increase of the global temperature and for the increasing rainfall.

Elizabeta Djambaska, Ph.D.
Communication

Country specific examples

1. Household heating
2. Transport
3. Green jobs
4. Girls in tech
5. Agriculture
Lessons learned, good practices

Build political will
- Gender and CC for the first time put on the political agenda of the Parliament

National ownership and engagement
- Support cooperation between gender/cc Ministries

Specific examples
- Agriculture, Health, Transport, Tourism, Financing, Economy, Education, Green Jobs

Transparency
- Gender data/indicators

Capacity building
- Training programme

Finance
- Proper budget
THANK YOU!
