The specific objective of the action is to support community-based family businesses to produce high quality competitive value-added products in the Sheki-Zaqatala Economic Zone by focusing on Balakan district. Through collaboration with and provision of support to the work of “ABAD” public legal entity and selected target families, the project will address the challenges that prevent and impede the development of community-based family businesses and rural entrepreneurship, economic regeneration and job creation in the Sheki-Zaqatala Economic Zone.

Introduction and objective of the services required within the RFQ

In Zaqatala and Gakh region IDPs mainly in harsh conditions and old Soviet farms. Many of IDP families live in remote villages and farms with a low possibility of production which requires serious utilities and engineering communications, so weaving is the fastest way to monetarize their knowledge. Naturally main financial income of IDP families has two main sources which are livestock and government support. These families were displaced from regions with serious handcrafting traditions. However handcrafting remains as a hobby due to following reasons: absence of access to the market, hard logistics, lack of raw materials and lack of marketing knowledge. The project had numerous discussions with ABAD which informed that small rugs are considered to be the bestsellers list of souvenir products. Therefore the project has decided to support IDP families from the regions with carpet weaving traditions with relevant equipment and material and help them to monetarize into family income with support of ABAD sales chain.

Carpet/rug looms, tools and threads specification

The carpet looms must be traditional looms with wooden and metal parts which allow to waive one sided double knotted traditional Azerbaijani carpets and rugs. The construction itself shall have traditional Azerbaijani loom details (Qol (2 ea); Ox (2 ea); Side trees (2 ea); Vərəngalan (1 ea); Çubuq (2 ea); Külü tree (ea) (indicated in Azeri language as there is no alternative translation in English);

Looms have to be vertical, warp and carpet must be able to be rolled up on both beams making it possible to let out new warp as work progress.

NOTE: The delivery and unloading shall be done to the remote villages of Gakh and Zaqatala regions by the company/vendor.

This is a lump-sum contract all-inclusive cost must be included in the proposal.
