OM UNDP Azerbaijan

Economic Empowerment for Entrepreneurship and Employment

The overall goal of the project is to support economic empowerment for entrepreneurship and employment among rural and young women in Masalli and Zagatala regions of Azerbaijan. The purpose of this project revision is to support the State Committee for Family, Women and Children Affairs (SCFWCA) of the Republic of Azerbaijan in expanding activities for women of Masalli and Zagatala region to fully participate in economic and social life of their community with increased donor contribution. With the availability of additional funding from USAID, UNDP and SCFWCA will extend their already existing collaboration on project activities in Masalli and establish a new Women Resource Center in Zagatala region until October 2019 building on the successful results of the previous phase of the project.

This project will benefit from UNDP's experience accumulated throughout the implementation of similar projects and will use the already tested methodology. The key results will include: establishment and capacity building of Women Resource Center (WRC) in Zagatala; capacity building of Masalli WRC; support to the establishment of women-led businesses; increased gender awareness among target communities; sensitivity to gender issues among local- and central-level public officials:

Women's Economic Empowerment in South Caucasus

The overarching goal of the project is to ensure that women, particularly the poor and socially-excluded, are economically empowered and participate in decision-making. The project specifically aims to: i) support poor and socially-excluded women to increase the level of their economic activity through capacity development and network building; ii) sensitize private sector to gender needs and interests of women by promoting Global Compact's Women Empowerment Principles.

The project will replicate the successfully tested model of the WRCs in the three regions of Azerbaijan – Gusar, Baku-Khazar and Sabirabad. Women in the target areas will benefit from access to information, capacity building, networking and income-generation opportunities.

This project is part of a larger UN WOMEN-implemented and SDC-funded programme "Women's Economic Empowerment in the South Caucasus". The project represents an additional phase of the UNDP gender programme and, as such, the current document is considered a substantive revision of the project "Promoting rural women's participation in the economic and social life". The current process is considering to have an agreement with selected supplier(s) for two years. The volume/quantity indicated in the list below is the estimate for this/first year. There are chances that the same equipment with approximately similar volume could be required during the second year as well. However, this is only estimate and UNDP does not warrant any volume under the current process for the first or second year. The bidders participating in the process shall keep the prices valid in case contracted for two years. The equipment mentioned below during each order shall be delivered to the specific area region, successfully installed, tested and initial training/instructions shall be done by the company representative on the usage.
