KEY RESULTS: JULY 2013 – AUGUST 2014
ENHANCED EVIDENCE-BASED POLICYMAKING IN THE AREA OF TACKLING CORRUPTION

- Developed capacities of Kosovo anti-corruption bodies to fight corruption by supporting their participation in regional and international meetings and facilitating their membership in the Regional Anti-Corruption Initiative (RAI) – a framework for coordination, optimization of efforts and permanent dialogue with the partner community in the region involved in the fight against corruption.

- Facilitated monitoring and enhancement of transparency at the local level by assisting the Ministry of Local Government Administration (MLGA) to design indicators measuring transparency.

- Facilitated reporting of corruption through provision of a trusted channel of communication for citizens by www.kallxo.com.

- Increased transparency and accountability in public spending through development of the only platform for visualization of government revenue and spending, reaching more than 70,000 people.

- Developed two online platforms through citizen-led innovation for the Municipality of Pristina/Pristina to increase transparency in spending and public sector recruitment.

- Increased engagement of youth with public institutions through involvement of 60 young men and women in designing and prototyping 15 technological solutions for the Municipality of Pristina/Pristina.

- Facilitated communication between youth and decision-makers by introducing social media as a channel of communication between them during local elections, reaching out to 1 million Twitter accounts.

- Have organized ongoing workshops and trainings with about 200 young people in Pristina/Pristina, Prizren and Gjilan/Gnjilane to promote engagement through digital media.

- Developed communication capacities of municipality of Prizren and Gjilan/Gnjilane by introducing visual and digital communications, to 100 local government representatives of which 30% were women.
