The cluster partners continue to support the provincial and district authorities to effectively manage the IDP situation. Regular Core Cluster meetings are being held on a fortnightly basis at a Provincial (Peshawar) and District level (Bannu). PDMA Bannu has also nominated a focal person to co-chair the District Working Group together with EHSAR Foundation.

Given the prolonged stay of IDPs in the hosting areas, cluster partners have emphasized the need to increase support for the hosting districts in both KP and FATA. In addition to ILO and UNDP, ACTED and ACF International have also initiated initiatives to support the displaced and hosting population through cash for work and community infrastructure and awareness programs. Some organizations are still awaiting NOCs in order to initiate activities on the ground.

The Cluster partners have prepared an analysis of the community restoration needs for 2015 which will be included in the Humanitarian Needs Overview currently being finalized by OCHA.

More than 13,230 callers have been provided information or referred to appropriate channels through the PDMA Call Centre. The major concerns of the IDPs in the last month continue to be related to cash payments, registration issues, weather conditions and health and water and sanitation related issues.

**Overview of cluster (needs/response/gaps)**

The cluster partners continue to support the provincial and district authorities to effectively manage the IDP situation. Regular Core Cluster meetings are being held on a fortnightly basis at a Provincial (Peshawar) and District level (Bannu). PDMA Bannu has also nominated a focal person to co-chair the District Working Group together with EHSAR Foundation.

Given the prolonged stay of IDPs in the hosting areas, cluster partners have emphasized the need to increase support for the hosting districts in both KP and FATA. In addition to ILO and UNDP, ACTED and ACF International have also initiated initiatives to support the displaced and hosting population through cash for work and community infrastructure and awareness programs. Some organizations are still awaiting NOCs in order to initiate activities on the ground.

**KEY RESULTS TO DATE**

### Legal assistance

The Legal Assistance Thematic Working Group is working on developing a referral pathway between the different grievance desks and other actors including NRC, ICLA and IRC. UNDP, in collaboration with Insaf Network, will soon initiate the Legal Aid Desk in Bannu which will have 3 mobile outreach teams including both female and male lawyers to who will carry out awareness campaigns among the IDPs about their legal rights and provide legal support in particular cases.

### Non-farm livelihoods

To date, ILO and ACD have registered 857 skilled laborers in Bannu (667 males and 190 females) and 279 have been referred to different organizations for employment opportunities. ACTED is awaiting an NOC to initiate a project in Bannu which will target 2,000 IDPs through CFW and conditional cash grants. So far, 1,590 people (including NWA IDPs) have been reached in Peshawar and Kohat. NRC has completed vocational skills for 2,200 IDPs, other than NWA, with the support of SRSP. WFP has also reached 10,000 families through Food for Work for asset development in 6 agencies of FATA. The next Thematic Working Group meeting will be held on 13th October.

### Community Infrastructure

UNDP and its partners SRSP, IDEA and PRDS have so far formed 29 community networks in Bannu. Of these, 3 are female community networks. UNDP/FIDA have completed village profiling of 19 villages in 5 targeted union councils of Dera Ismail Khan. The village profiling for Lakki Marwat is in process. OTI/IOM has finalized the assessment of 14 additional schools in Bannu bringing the total number of schools that will be rehabilitated and refurbished in NWA IDP hosting areas to 17.
4W Update of NWA Emergency as of 13 October 2014
