

PAYMENTS FOR OUTCOMES AND SOCIAL IMPACT BONDS

Empowered lives.
Resilient nations.

WHAT?

Public-private collaboration allowing private (impact) investors to upfront capital for projects that deliver social and environmental outcomes. If the project succeeds, the investors are repaid by the Government (social impact) or an aid agency and philanthropic funders (development impact) with capital plus interest. If the project fails, the interest and part of the capital is lost. A payment-for-result/success scheme

THE RHINO IMPACT INVESTMENT PROJECT TESTS OUTCOMES-BASED FINANCING SCHEMES TO SAVE RHINOS FROM EXTINCTION

- Design and test innovative outcome measurement frameworks
- Connect private financing with critical development challenges and take risks that the public sector cannot afford to take
- Foster preventative financing schemes-invest to save!
- Foster results-based partnerships for scaling up and replication (outcome facilities)

WHY?

SERBIA'S FIRST SOCIAL IMPACT BOND TO TACKLE THE HIGH YOUTH UNEMPLOYMENT

A DEVELOPMENT IMPACT BOND TO HELP TOBACCO FARMERS TRANSITION OUT FROM TOBACCO CULTIVATION

HOW?

- Coalition and partnership building
- Design of outcome matrices
- Feasibility and pre-feasibility studies
- Independent advisory to Governments

ON-GOING INITIATIVES

Name	Phase	Region	Theme
One-Health Financing Pilot	Preparatory	Africa (Rwanda)	Health
Rhino Impact Investment	Pre-launch	Africa (multi-country)	Environment
Transitioning from Tobacco	Preparatory	Africa (multi-country)	Health
Agriculture in Armenia	Preparatory	Europe and NIS (Armenia)	Agriculture
