UNITED NATIONS OFFICE FOR PROJECT SERVICES

AT A GLANCE

WHO WE ARE

MANDATE

UNOPS' mission is to serve people in need by expanding the ability of the United Nations, governments and other partners to manage Projects, Infrastructure and Procurement in a sustainable and efficient manner.

Within these three core areas of expertise, UNOPS provides its partners with advisory, implementation and transactional services, with projects ranging from building schools and hospitals to procuring goods and services and training local personnel. UNOPS works closely with governments and communities to ensure increased economic, social and environmental sustainability for the projects we support, with a focus on developing national capacity.

UNOPS will increase its focus in areas where it has expertise, experience and a clear mandate. To develop high quality products and services within each delivery practice and to have the most impact on the development, humanitarian and peace building operations and results of our partners.
HISTORY OF UNOPS IN ETHIOPIA

Even though UNOPS operations in Ethiopia began more than two decades ago, its operations were managed and supervised from other countries in the region and from its headquarters, which were initially in New York but now in Copenhagen.

UNOPS established its in-country office in Addis Ababa in January 2009 following its selection by the Global Fund to be the Ethiopia Local Fund Agent (LFA).

In 2014 the Ethiopia Operational Hub (ETOH) was created covering the three Horn of Africa countries (Ethiopia, Sudan and Djibouti). The Hub regrouped ongoing UNOPS operations in Sudan and Ethiopia, where UNOPS has been operational since 2005 and 2009 respectively.

UNOPS ETOH has now focus on its core areas of expertise and give service to partners in the UN system and the government bot in Ethiopia and Sudan. Preparation works are done to open a country office in Djibouti very soon.
