United Nations Development Programme
Country: UZBEKISTAN
Project Document

Project Title
ACCESS: promoting Accessibility, Civic Consciousness, Employment, and Social Support for people with disabilities

UNDAF Outcome:
1. Strengthened national and local level capacity to develop, implement and monitor strategies for improving living standards and reducing poverty

Expected CP Outcome:
1. Sustainable human development policies to improve livelihoods and access to social services by the poor developed and their implementation is monitored in accordance with MDGs.

Expected CP Output:
1.1. Strengthened capacity of the government in cross-sectoral policy analysis and formulation.

Implementing Partner: Ministry of Labour and Social Protection of the Republic of Uzbekistan

Brief Description
The main goal of the project is to widen social integration and employment opportunities for people with disabilities through a) increasing public awareness and formation of positive image of disability, b) improving coordination and Strengthening the capacity of state and non-state agencies in the implementation of national legislation in the field of disability, c) promoting accessible physical environment and d) creating a system of social support in the employment of people with disabilities.

Programme Period: Country Programmes 2005-2009
Key Result Area: Promoting inclusive growth
(Indicators and targets):
gender equality and MDG achievement

Atlas Award ID: 00050635
ATLAS Project ID: 00062647
Start date: 15/09/2008
End Date: 31/08/2010
PAC Meeting Date: 08/09/2008
Management Arrangements: NEX

2008 AWP budget: USD 87,790
Total resources required: USD 415,000
Total allocated resources: USD 415,000
• Regular UNDP TRAC: USD 390,000
• Parallel funding: USD 20,000 (UNICEF)
• USD 5,000 (UNESCO)

In-kind Contributions:
Government: office space, furniture, telephone lines

Aktam Haitov
Minister of Labour and Social Protection of Population of Republic of Uzbekistan

Agreed by:
Ercan Murat
UNDP Resident Representative a.i.
I. Situation Analysis

Uzbekistan was one of the first countries in the CIS to focus on the problem of disability and the first in the commonwealth to pass the law "On Social Protection of The Disabled" in 1991 which served as an example for the development of similar laws in other republics. Up to date, the Government has approved the new version of this law that includes the detailed description of mechanisms of ensuring equal right of people with disabilities and the accountability for breaching the law are heightened. The advantage of the law is in the new approach, people with disabilities are considered not "defective objects of charity" but instead worthy citizens with equal rights. The law brings the national legislation into conformity with international standards in the field of legal protection of people with disabilities and the new Convention on the Rights of People with Disabilities. Together with a number of other laws such as "On the Guarantees of Child Rights", "On Education", "On Protection of Citizens' Health", this law provides comprehensive legal basis in the field of disability.

In addition to creating legal basis, the Government of Uzbekistan continues to take concrete measures to promote the well-being of people with disabilities. The Welfare Improvement Strategy for 2008-2010, together with existing and recently passed measures for social protection of people with disabilities, envisages a number of actions aimed at increasing availability of technical means of rehabilitation, creating barrier-free environment, increasing the effectiveness of the system of rehabilitation, improving the access to education, employment and sports.

The Ministry of Labor and Social Protection of Population is identified by the Government as responsible for the issues of social protection of people with disabilities and their employment. The Ministry has substantial experience and potential in this field. Additionally, it was responsible for the development, implementation, and coordination and monitoring of State Programme on Medico-Social Rehabilitation of the Disabled in 1996-2000.

All these facts indicate the strong commitment of Uzbekistan to building a constitutional state with well developed social policy that provides the rights and interests of all citizens, including citizens with disabilities. However, there are a number of urgent issues to be addressed in the field of equal rights guarantee and socio-economic well-being of people with disabilities.

The official statistics in Uzbekistan indicate that people with disabilities number 780,000 people (2% of total population) of whom 52% are women and 48% are men. 31% of the total number of people with disabilities receive social benefits, around 30% are employed. There is a gap in the data on education coverage and the level of poverty among them in the republic. They are often "invisible" in the national research and analysis. According to the international data, the level of poverty among people with disabilities is at least four times higher than the average in a country, whereas their education and employment opportunities are severely limited. The assessment conducted by UN in Uzbekistan also indicates the high risk of severe poverty among people with disabilities due to limited access to labor market. Moreover, due to physical barriers, the access to services, that are available to all groups of population, and the participation in socio-political life are often inaccessible for people with physical disabilities. Even the agencies dealing with the disability issues do not have proper facilities accessible to the FWD.

Hence, despite the achievements of Uzbekistan in creating legal basis for ensuring socio-economic well-being of people with disabilities, the implementation of the existing legislation remains far from effective.

The adoption of the Convention on the Rights of People with Disabilities by the General Assembly of UN in 2006 is a call for UNDP, the leading organization among UN agencies on promotion of human rights and poverty reduction, to engage actively. For UNDP Uzbekistan the field of disability is relatively new, with only one previous joint project with Special Olympics Uzbekistan that was aimed increasing public awareness through involvement of children and youth with and without disabilities in sports. Thus ACCESS is the first complex project that deals at once with a number of marginalizing and segregating factors: "invisibility", stigmatization and "medical" approach, limited access to information, communication and decision-making, limited accessibility of physical environment, insufficient system of socio-legal support. Only via overcoming these negative factors will enable the achievement of full and equal implementation of all fundamental freedoms and rights of people with disabilities.

---

1 Law "On introduction of changes and additions to the law "On Social Protection of the Disabled in RU", passed by the Legislative Chamber on 22 April 2008, approved by the Senate on 27 June 2008, approved by the President on 11 July 2008.
3 Based on the Ministry of Labour and Social Protection of Population data.
II. STRATEGY

RBEC Action Plan on People Living with Disabilities for 2008-2009 suggests that RBEC actions for people with disabilities should utilize to the maximum the complex, multi-sectoral approach of UNDP. In line with this the main goal of the project is to widen social integration and employment opportunities for people with disabilities through:

1) increasing public awareness and formation of positive image of disability,
2) improving coordination and strengthening the capacity of state and non-state agencies in the implementation of national legislation in the field of disability,
3) promoting accessible physical environment, and
4) creating a system of social support in the employment of people with disabilities.

The project will be implemented in the framework of UNDP Strategy Plan 2008-2011, key results area E “Poverty reduction and achievement of MDGs” with particular focus on sub-area “Promoting inclusive growth, gender equality and achievement of the MDGs” (par.70-77). Project components on awareness raising, promoting accessibility and employment are the largest contributors to these goals. Component one – the wide awareness raising campaign – is aimed at diminishing stigmatization and discrimination towards women and men with disabilities and overcoming their “invisibility”, both are necessary for the successful implementation of other project components. Component four – promoting employment – will enable to not only increase the economic and social well-being of people with disabilities, but also to ensure their input into economic and social development, and, in its own turn, to reach their full social integration. This will be possible only when barriers in the physical environment are absent (component three).

Additionally, the project contributes to key result no 1 of Country Programme Results and Resources Framework “Sustainable human development policies to improve livelihoods and access to social services by the poor developed and their implementation is monitored in accordance with MDGs”. Component two of the project, supporting the provision of rights of people with disabilities, is aimed at supporting the participation of organizations of people with disabilities in public and political spheres, their participation in decision making in the sphere of disability. This component contributes to UNDP Strategic Plan 2008-2011 sub-sections on UNDP priority in democratic governance – «strengthening accountable and responsive governing institutions» (nap.88-90). The result of this activity will be a Joint Action Plan on improving the well being of people with disabilities aimed at increasing access to services. Finally, the component contributes to «grounding democratic governance in international principles» (nap. 90-91) – promotion of the ratification of the Convention on the Rights of People with Disabilities is envisaged in the project activities.

The project will interact with UNDP project “Assisting the Government of Uzbekistan in formulation and implementation of ICT for development policy” on conducting computer literacy trainings for PWD and project “Capacity building for Internet Technologies Development and Promotion in Uzbekistan. Phase 2” on professional ICT training for PWD.

The project will also interact with UNDP projects «Promoting Energy Efficiency in Public Buildings in Uzbekistan» «Piloting Energy Efficient and Renewable Energy Solutions in Rural Health Clinics of Uzbekistan» on providing accessibility of pilot buildings of these projects for PWD.

To ensure success implementation of the projects its methodology is based on the following principles:

1. Human Rights Based Approach emphasizes that all project activities aimed at supporting people with disabilities are considered not charity activities but rather the implementation of their equal rights guaranteed by law.
2. Social model of disability means that disability is defined largely by social barriers (stigmatization, stereotypes, and barriers in physical environment, lack of access to services, education, and employment) rather than constraints connected to physical, psychological, and intellectual or sensor impairments of the person. Hence the project targets overcoming social constraints, rather than “correcting” the impairments of person with disabilities.
3. Partnership approach ensures that all project activities are implemented in close partnership of state, non-state, international and non-profit organizations and mass-media. No activities or decisions in the frameworks of the project can be implemented without participation of people with disabilities – the rule “nothing about us without us”.
4. Advocacy approach of the project is implemented through large scale campaign on public awareness. All activities and actions of the project contribute to the formation of positive attitude towards people with disabilities and promotion of necessary changes.
### III. Results and Resources Framework

**Intended Outcome as stated in the Country Programme Results and Resource Framework:**

1. Sustainable human development policies to improve livelihoods and access to social services by the poor developed and their implementation is monitored in accordance with MDGs.

**Outcome Indicators as stated in the Country Programme Results and Resources Framework, including baseline and targets:**

**Indicators:** National strategy for improving living standards launched with clear national and regional targets for poverty reduction and achievement of MDGs.

**Baseline:** Government has created an inter-agency committee to coordinate the elaboration of mid-term strategy for improving living standards.

**Target:** MDGs integrated into national strategy for improvement of living standards.

**Applicable Key Result Area (from 2008-11 Strategic Plan) E:** Poverty reduction and achievement MDG / Promoting inclusive growth, gender equality and achievement of the MDGs. Provisional Corporate Outcome: MDG-based national development strategies promote growth and employment, and reduce economic, gender and social inequalities.

**Partnership Strategy**

Implementing agency: Ministry of Labor and Social Protection of Population.

Other partners: UN agencies (UNFPA, UNICEF, UNESCO), state structures (Ministries of Higher Education, Health, others).

Main beneficiaries: Society of PWD in Uzbekistan, Coalition "Accessibility", NGO "Opa-Singular".

**Project ID and title:** 00062647 "ACCESS: promoting Accessibility, Civic Consciousness, Employment, and Social Support for people with Disabilities".

The Ministry of Labour and Social Protection of Population will be represented in the Project Board. The Project Board will be responsible for making by consensus management decisions for a project when guidance is required by the Project Manager, including recommendation for UNDP/Ministry of Labor and Social Protection approval of project plans and revisions. In order to ensure UNDP’s ultimate accountability, Project Board decisions should be made in accordance to standards that shall ensure best value to money, fairness, integrity transparency and effective international competition.

This Board contains three roles, including:

1) An Executive: individual representing the project ownership to chair the group.
2) Senior Supplier: individual or group representing the interests of the parties concerned which provide funding and/or technical expertise to the project. The Senior Supplier’s primary function within the Board is to provide guidance regarding the technical feasibility of the project.
3) Senior Beneficiary: individual or group of individuals representing the interests of those who will ultimately benefit from the project. The Senior Beneficiary’s primary function within the Board is to ensure the realization of project results from the perspective of project beneficiaries.

Project Assurance is the responsibility of each Project Board member, however the role can be delegated. The Project Assurance role supports the Project Board by carrying out objective and independent project oversight and monitoring functions. This role ensures appropriate project management milestones are managed and completed.

The Project Support role provides project administration, management and technical support to the Project Manager as required by the needs of the individual project or Project Manager. The provision of any Project Support on a formal basis is optional. It is necessary to keep Project Support and Project Assurance roles separate in order to maintain the independence of Project Assurance.
Duties and responsibilities of the all project team members are presented in Annex II. - Terms of Reference.

**Direct UNDP Country office Support Services to the Programme Implementation**

The UNDP and the Ministry of Labour and Social Protection of Population have agreed that the UNDP Country Office will provide the following support services for the project activities at the request of the Ministry of Labour and Social Protection of Population:

1. Identification and/or recruitment and solution of administrative issues related to the project personnel;
2. Procurement of commodities, labor and services;
3. Identification and facilitation of training activities, seminars and workshops;
4. Financial monitoring and reporting;
5. Processing of direct payments;
6. Supervision of project implementation, monitoring and assistance in project assessment.

The UNDP country office may provide support services for assistance with reporting requirements and direct payment. In providing such support services, the UNDP country office shall ensure that the capacity of the Ministry of Labour and Social Protection of Population is strengthened to enable it to carry out such activities directly.

When providing the above support services, the UNDP Country Office will recover the costs for providing Implementation Support Services on the basis of actual costs and transaction fee based on the Universal Price List. According to the corporate guidelines, these costs are an integral part of project delivery and, hence, will be charged to the same budget line (account in AWP) as the project input itself.

The procurement of goods and services and the recruitment of project personnel by the UNDP country office shall be in accordance with the UNDP regulations, rules, policies and procedures. If the requirements for support services by the country office change during the life of a project, the list UNDP country office support services is revised with the mutual agreement of the UNDP resident representative and the Ministry of Labour and Social Protection of Population.

The relevant provisions of the Standard Basic Assistance Agreement (SBAA) between the Government of Uzbekistan and the UNDP, signed by Parties on 10th June 1993, including the provisions on liability and privileges and immunities, shall apply to the provision of such support services.

The Ministry of Labour and Social Protection of Population shall retain overall responsibility for this nationally managed project and will appoint the National Project Coordinator (NPC). Direct responsibility of the NPC will be provision of strategic advice, as well as coordination of the project activity taking into account interests of the Government. He/she will approve Annual Work Plan of the Project, according to which the whole project activity will be carried out.

Any claim or dispute arising under or in connection with the provision of support services by the UNDP country office in accordance with this document shall be handled pursuant to the relevant provisions of the SBAA.

**VI. Monitoring Framework and Evaluation**

In accordance with the programming policies and procedures outlined in the UNDP User Guide, the project will be monitored through the following:

**Within the annual cycle**

- On a quarterly basis, a quality assessment shall record progress towards the completion of key results, based on quality criteria and methods captured in the Quality Management table below.
- An Issue Log shall be activated in Atlas and updated by the Project Manager to facilitate tracking and resolution of potential problems or requests for change.
- Based on the initial risk analysis submitted (see annex 1), a risk log shall be activated in Atlas and regularly updated by reviewing the external environment that may affect the project implementation.
- Based on the above information recorded in Atlas, a Quarterly Progress Reports (QPR) shall be submitted by the Project Manager to the Project Board through Project Assurance, using the standard report format available in the Executive Snapshot.
- A project Lesson-Learned Log shall be activated and regularly updated to ensure on-going learning and adaptation within the organization, and to facilitate the preparation of the Lessons-Learned Report at the end of the project.
- A Monitoring Schedule Plan shall be activated in Atlas and updated to track key management actions/events.

**Annually**

- **Annual Review Report.** An Annual Review Report shall be prepared by the Project Manager and shared with the Project Board and the Outcome Board. As minimum requirement, the Annual Review Report shall consist of the Atlas standard format for the QPR covering the whole year with updated information for each above element of the QPR as well as a summary of results achieved against pre-defined annual targets at the output level.
- **Annual Project Review.** Based on the above report, an annual project review shall be conducted during the fourth quarter of the year or soon after, to assess the performance of the project and appraise the Annual Work Plan (AWP) for the following year. In the last year, this review will be a final assessment. This review is driven by the Project Board and may involve other stakeholders as required. It shall focus on the extent to which progress is being made towards outputs, and that these remain aligned to appropriate outcomes.

**OUTPUT**: People with disabilities have more opportunities for employment in accessible and inclusive environment.

**Activity Result 4 (Atlas Activity ID)**: System of social and legal assistance on employment is functioning

**Purpose**
Employment, as one of the main human rights, allows not only to support financial well-being PWD, but provides their self-actualization, provides their input to social and economical development, and, finally their full inclusion. But there are very few employment opportunities for PWD. Available working places in state enterprises offer usually low salaries, and centers for employment do not work with private companies.

**Description**
System of social and legal assistance on employment will be implemented in existing pilot centers for employment. It will include on-line data base on PWD employment, trainings on vocational adaptation and orientation, Club of PWD looking for a job, direct interaction with potential and real employers, including socially responsible private business and social-legal assistance on employment and during initial employment period.

VII. LEGAL CONTEXT

This project document shall be the instrument referred to as such in Article 1 of the SBAA between the Government of Uzbekistan and UNDP, signed on June 10, 1993.

Consistent with the Article III of the Standard Basic Assistance Agreement, the responsibility for the safety and security of the executing agency and its personnel and property, and of UNDP's property in the executing agency's custody, rests with the executing agency.

The executing agency shall:

a) put in place an appropriate security plan and maintain the security plan, taking into account the security situation in the country where the project is being carried;

b) assume all risks and liabilities related to the executing agency's security, and the full implementation of the security plan.

UNDP reserves the right to verify whether such a plan is in place, and to suggest modifications to the plan when necessary. Failure to maintain and implement an appropriate security plan as required hereunder shall be deemed a breach of this agreement.

The executing agency agrees to undertake all reasonable efforts to ensure that none of the UNDP funds received pursuant to the Project Document are used to provide support to individuals or entities associated with terrorism and that the recipients of any amounts provided by UNDP hereunder do not appear on the list maintained by the Security Council Committee established pursuant to resolution 1267 (1999). The list can be accessed via http://www.un.org/Docs/sc/committees/1267/1267ListEng.htm. This provision must be included in all sub-contracts or sub-agreements entered into under this Project Document.

Annex II. ToRs of project staff

TERMS OF REFERENCE

Post Title: Project Manager (PM, full-time)
Project Title: ACCESS (promoting Accessibility, Civic Consciousness, Employment, and Social Support for people with disabilities) - subject to change
Duty station: Tashkent, Uzbekistan
Duration: Initially 6 months with possible extension to 1 year and renewable each year (subject to satisfactory performance)

Background

The project aims to support the disabled and promote their social and vocational integration into society through 1) Raising public awareness and inclusiveness of vulnerable groups and building partnerships in advocating for their rights; 2) Capacity building of state and people with disabilities (PWD) organizations on implementation of Legislation towards PWD; 3) Promotion of accessibility of main public social agencies and public buildings; 4) Design and implementation of the Pilot model of social and legal assistance on employment of PWD.

The PM will be fully responsible for the satisfactory achievement of the project objectives and for operational management of the project according to the project document and UNDP corporate rules and procedures. The PM will be working under direct supervision of of the Project Board and in close cooperation with the UNDP Head of Good Governance Unit and Gender Specialist.

Duties and Responsibilities

1. Oversees strategic planning process for the project and ensures its implementation in accordance with the signed project document;
2. Coordinates and facilitates the work of inter-agency group created in the course of the project;
3. Submits documents on project planning and financial oversight;
4. Ensures that project contributes to the promotion of non-discrimination towards PWD by providing full and effective participation and inclusion of PWD in all activities of the project and to the promotion of gender equality by reaching, involving and benefiting both women and men in its activities (gender mainstreaming);
5. Monitors the implementation of project components, analyses problems that hamper their implementation and takes appropriate measures to ensure timely delivery of required inputs and achievement of project-wide results;
6. Monitors and reports to UNDP on all financial and procurement matters of the project, including proper utilization of funds and delivery, budget revisions, availability of funds, reconciliation of accounts, establishment of internal control mechanisms. Acts as a focal point to liaise with auditors and ensures follow-up actions. Ensures the accuracy and reliability of financial information and reporting;
7. Coordinates gender balanced recruitment process of the local and international consultants and ensures timely delivery of services and payments;
8. Identifies partnership strategies with regard to providers of specialised expertise, with special encouragements for providers with a gender mandate/gender knowledge, and possible co-financiers, and leads resource mobilisation for project components;
9. Encourages deeper awareness of and promotion of human right approach toward PWD and gender equality among project staff and partners;
10. Coordinates and supervises the work of project team members and the National and International Consultants, recruited within the project activities;
11. Liaises with other UNDP-funded projects to implement possible synergies and reports to UNDP Programme Officer on conducted activities;
12. Maintains close cooperation with relevant Government bodies, UN Agencies and other development partners to ensure effective communication and follow up on matters related to project activities;

13. Monitors and facilitates advocacy and mass media outreach activities, writing of success stories, newspapers coverage, PR campaigns;

14. Acts as the certifying officer for all project expenditures according to Operational guidelines on National Execution, if applicable;

15. Prepares and submits on a timely manner the Annual Project Report and any other required progress reports and ensuring that reports prepared by project personnel or participants are prepared as required;

16. Provides assistance with the overall monitoring and evaluation of the project and ensures that all data gathered during project implementation is disaggregated by sex.

**Professional requirements**

- Advanced university degree in any of the following areas: humanitarian and social sciences;
- At least 3 years of progressive management working experience in the sphere of social inclusion, promotion of human rights, disabilities issues (experience with international and UNDP projects is an asset);
- Excellent understanding of concepts and principles in the sphere of disability, knowledge of disability issues in the country;
- Understanding of development issues, human rights (including women’s rights), basic gender concepts and gender issues in the country;
- Knowledge of or experience in gender mainstreaming is an asset;
- Strong analytical, communication and management skills, client-orientation, ability to work in a team;
- Ability to use information and communication technology as a tool and resource;
- Fluency in English and Russian, knowledge of Uzbek is an asset;
- Initiative, analytical judgment, ability to work under pressure, ethics and honesty.
TERMS OF REFERENCE

Post Title: Public Awareness Specialist (full-time)
Project Title: ACCESS (promoting Accessibility, Civic Consciousness, Employment, and Social Support for people with disabilities) - subject to change
Duty station: Tashkent, Uzbekistan
Duration: Initially 6 months with possible extension to 1 year and renewable yearly (subject to satisfactory performance)
