

# Modernizing Public Institutions and Systems in Yemen Project (MPISY)

Last updated: September 2026

## PROJECT INFORMATION

The MPISY Project is expected to run over a five-year duration (with an expected closing date of June 2031) as an International Development Association Grant from the World Bank Group supported project with a total budget of US\$ 20 million.

MPISY aims to establish the building blocks for evidence-based policymaking, transparent budgeting, and effective civil service management. It also aims to build public institutions' capacity to manage future development financing directly and provide the data and systems needed for economic recovery, private sector growth, and job creation.

## SNAPSHOT

Yemen

US\$ 20 million

2026 - 2031

## PROJECT COMPONENTS

- **Component 1:** Strengthening Yemen's Statistical System and SNA (US\$7.75 million). Rebuild foundations of Yemen's statistical system and restore production of the System of National Accounts (SNA).
- **Component 2:** Strengthening Core PFM and HRM/Payroll Systems (US\$7.75 million). Develop foundations for core government functions and systems.
- **Component 3:** Project Management and Readiness for Localization (US\$ 4.5 million). Ensure effective project implementation and build government capacity for future direct implementation.

# Modernizing Public Institutions and Systems in Yemen Project (MPISY)
