

Yemen Food Security Response and Resilience Project (FSRRP)

Last updated: October 2026

PROJECT INFORMATION

Funded by the World Bank's International Development Association (IDA), the Yemen Food Security Response and Resilience Project (FSRRP) is implemented by the United Nations Development Programme (UNDP), the Food and Agriculture Organization of the United Nations (FAO), and the World Food Programme.

UNDP's component of FSRRP improves agricultural production infrastructure and builds climate resilience in partnership with the Social Fund for Development (SFD) and the Public Works Project (PWP).

SNAPSHOT

Across 50 districts

US\$ 64 million

Ends in
December 2026

WHERE WE WORK

Yemen Food Security Response and Resilience Project (FSRRP)

IMPACT SO FAR

1,362,158 workdays created
(**132,269** for women).

43,883 people benefited from work opportunities
(**4,069** women).

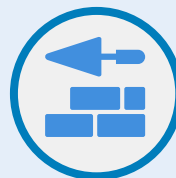

23,043 farmers with improved access to water resources
(**5,351** women).

17,755 farmers with improved access to land resources
(**4,105** women).

205.1 kilometres of improved agricultural roads.

207,503 cubic metres of constructed and improved rainwater harvesting tanks.

8,896 hectares of improved and protected lands.

118,805 metres of constructed and improved irrigation canals.

13,785 hectares of irrigated agricultural lands.

Improved irrigation and bountiful harvests in Al-Makha, Taiz

Water is the lifeline of Al-Makha's farming community but managing it requires more than just rainfall—it requires infrastructure that is resistant to climate change.

Witness the transformation of the landscape through our **Food Security Response and Resilience Project (FSRRP)** in the below video. By constructing sedimentation barriers to restore the wadi water level, installing control gates for water management, and rehabilitating vital irrigation canals, we are helping farmers reclaim their land and secure their harvests. An intervention that demonstrates the impact of investing in climate-smart agricultural infrastructure.

This vital intervention is made possible with WBG funding and support and in collaboration with our national implementing partner, the Public Works Project.
