

2019 Directory

JPO Alumni Association (JAA)

"A lifelong connection to the United Nations' activities"

The JPO Alumni Association (JAA)

Launched in 2003, the **Junior Professional Officer Alumni Association (JAA)** groups **2,853 members as of June 2019**. The JAA is viewed as a key contribution to the development of a cross-generational JPO community spirit.

The JAA is also open to former SARCs (Special Assistant to the Resident Coordinator) alumni, 84 former SARCs are member of the JAA, 56 of them were former JPOs as well.

The JPO Alumni Association promotes a lifelong connection to the United Nations' activities and the Organisation's ethical standards. More specifically, it aims at:

- Making use of the talents and resources of former JPOs to advocate the United Nations values;
- Fostering a community spirit and knowledge sharing among former JPOs;
- Facilitating career opportunities for former JPOs.

For more information on the JAA, please visit our [website](#), or contact the UNDP JPO Service Centre (JAA focal point: jean-luc.marcelin@undp.org).

The Yearly JAA Member Directory

Published every year by the UNDP JPO Service Centre (Office of Human Resources / Bureau for Management Services) the **JAA Member Directory** aims at producing a yearly snapshot of the composition of the JAA, from which key statistics, as well as trends over the years can be extracted.

We trust that this **JAA Member Directory** will strengthen the visibility of the JAA and further develop its activities. It will also allow the JPO Service Centre to refine its response to donor's follow-up requests and to support career development of current JPOs.

The JPO Service Centre would like to take this opportunity to thank the JAA Members for their continuous commitment to the Alumni initiative and their contribution to this directory.

Alumni can make new professional connections through the [JPO Alumni Association's](#) official LinkedIn group, exclusive to all former JPOs, SARCs and SDPs. Discussion posts are moderated and the topics are focused on career-related news and alumni networking opportunities.

JAA Overview

JAA Members by Gender

Highlights:

The proportion of female Alumni members is slowly increasing over the years: from 50% in 2006 up to 58% in 2019. This progressive trend reflects the growing number of current female JPOs, who now represent 68% of the JPOs administered by the UNDP JPO Service Centre.

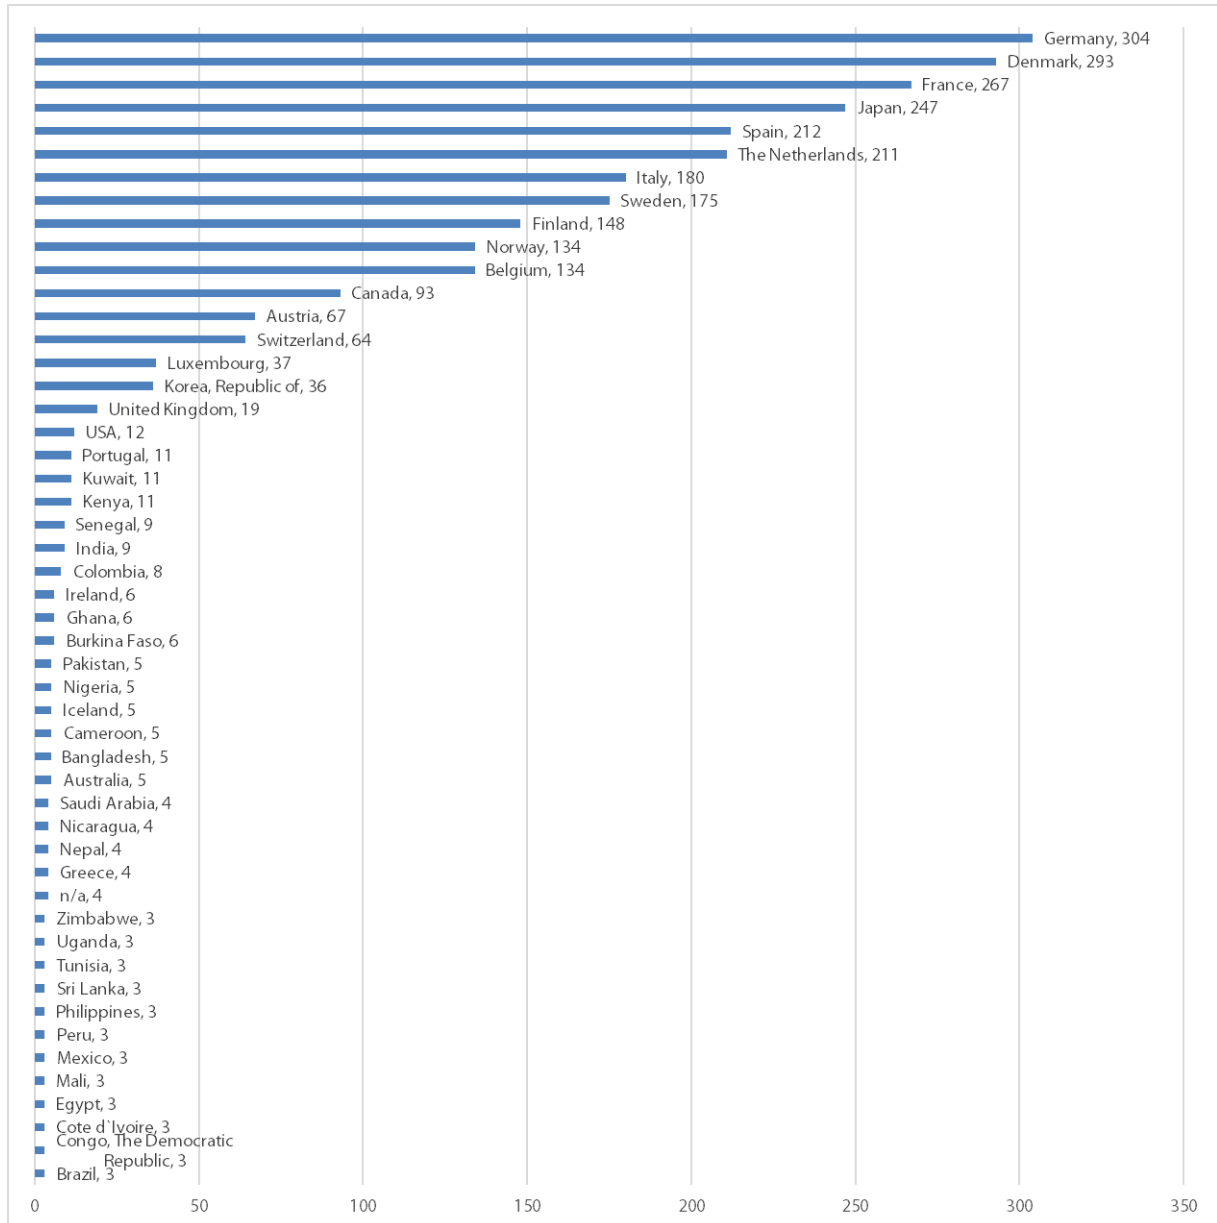

JAA Members by Nationality

Highlights:

- Alumni members include 91 nationalities (92 in 2017, 86 in 2015, 74 to 2011, and 65 in 2009)
- More than half of the JAA Alumni come from the following six countries: Denmark, Germany, France, Japan, Spain and The Netherlands. About 26% of the Alumni members come from the Nordic countries (Denmark, Finland, Norway and Sweden).
- The breakdown by region is as follows: Europe 80%, Asia & the Pacific 11%, Americas 5%, Arab States 1%, and Africa 3%

Detailed breakdown:

In addition, two members from each of the following countries: Afghanistan, Armenia, Benin, Bolivia, Burundi, Chad, China, El Salvador, Madagascar, Mauritania, Poland, Sudan, Togo, Uzbekistan, and Vietnam.

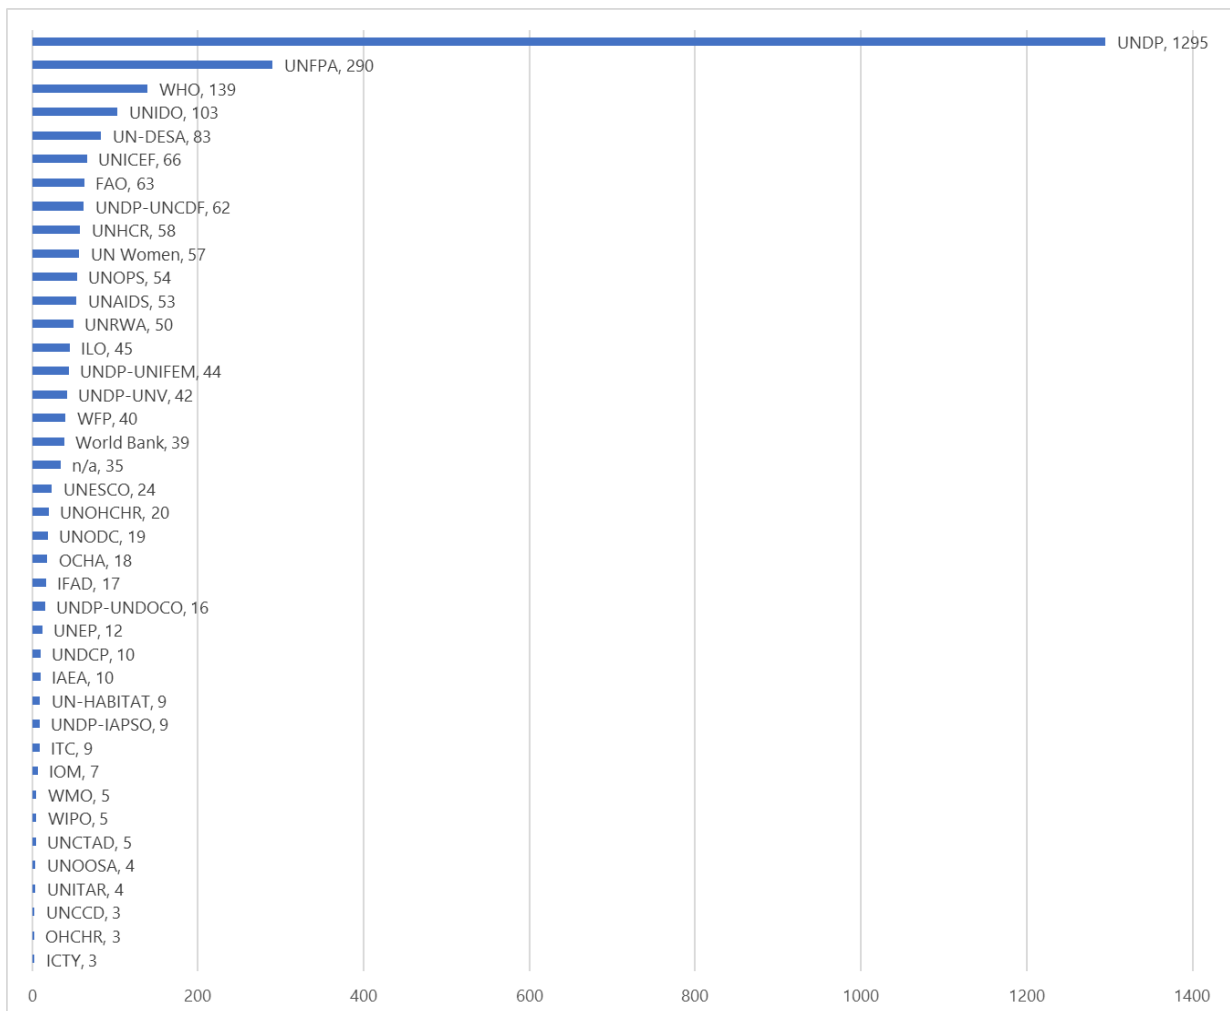

One member from each of the following countries: Algeria, Andorra, Argentina, Central African Republic, Chile, Comoros, Cuba, Cyprus, Czech Republic, Ecuador, Ethiopia, Gabon, Guyana, Haiti, Indonesia, Kyrgyzstan, Liechtenstein, Malawi, Republic of Moldova, Romania, Rwanda, Sierra Leone, Slovakia, United Republic of Tanzania, Trinidad and Tobago, Turkey, and Turkmenistan.

JAA Members by JPO Agency

Highlights:

- As of June 2019, the JPO Alumni Association comprises 2,853 former JPOs coming from 59 different UN organisations or specific entities.
- 45% (53% in 2016, 60% in 2011, 76% in 2007) of the JAA Alumni were JPOs with UNDP. JPOs with UNDP affiliated agencies (UNCDF and UNV) represent an additional 6% of all JAA members. This high figure comes from the fact that the JAA was first created by and for UNDP.
- With time, this proportion is decreasing as the JAA is open to all former UN JPOs and the breadth of former JPOs steadily becomes more comprehensive. In 2019, the second largest JPO agency is UNFPA.

Detailed breakdown:

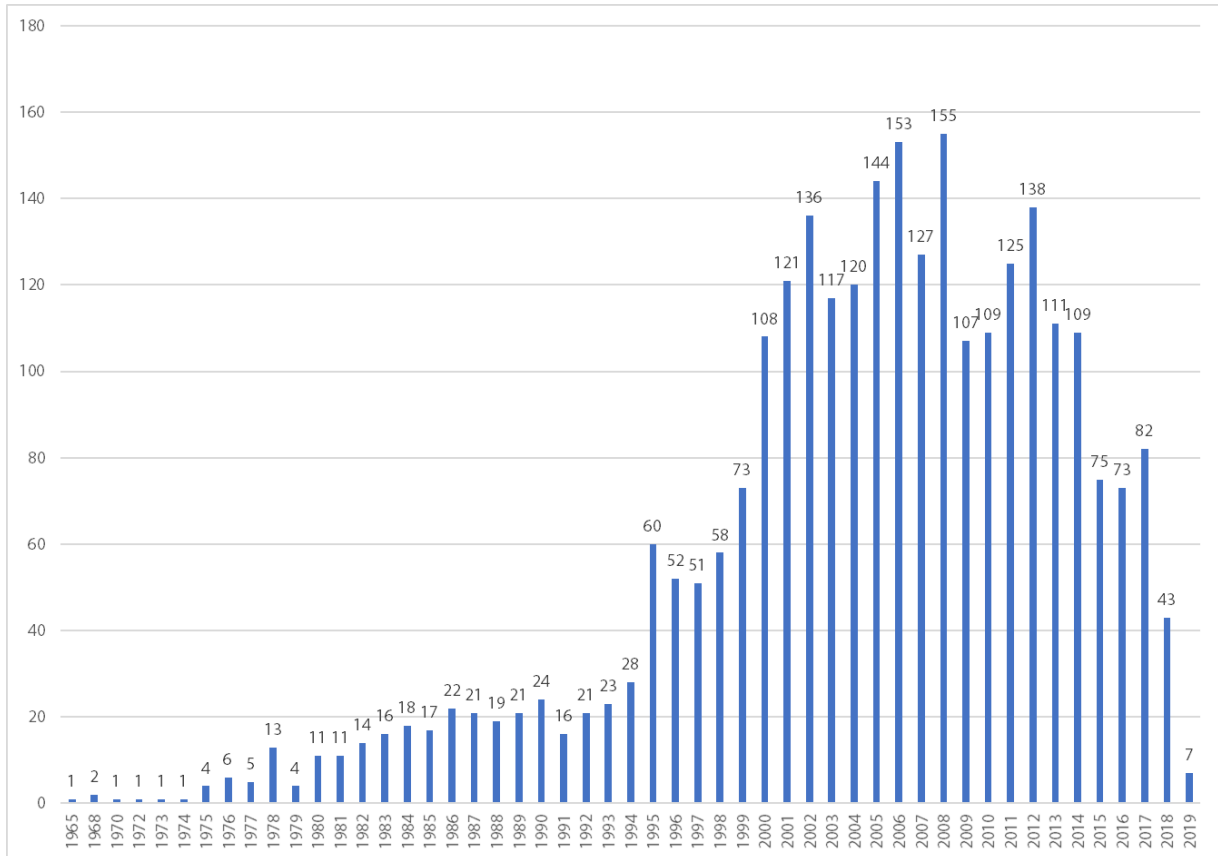

In addition, two members from each of the following Agencies: ICAO, UNFCCC, UNOCHA, UNSSC, UPU.
 One member from each of the following Agencies: European Union, ICARDA, IDB, INSTRAW, MRC, OECD, UNCHR, UNCHS, UNCITRAL, UNDP Cap-Net, UNFIP, UN-ISDR, UNTAB.

JAA Members by last Year of JPO Assignment

Highlights:

- About 78% of the Alumni members ended their JPO assignment in 2000 onwards. Recently separated JPOs are overrepresented in the JAA, as communication has become easier through online channels, and thus more information on their whereabouts is available.

Detailed breakdown:

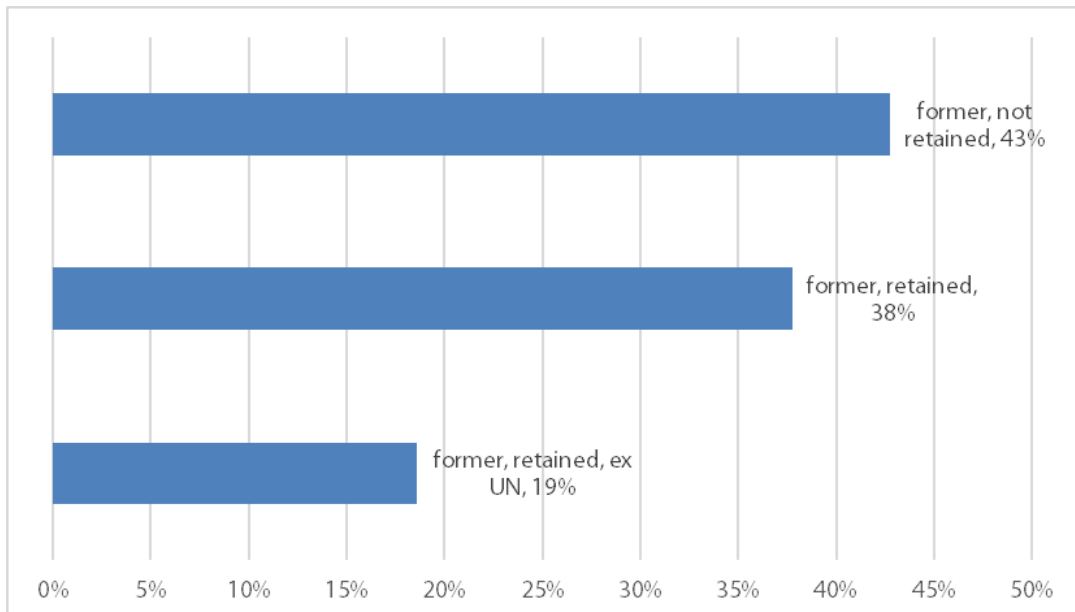

JAA Members by post-JPO UN Status

Highlights:

- The JAA members are divided into three categories:
 - **“Retained - Current UN Staff”** which groups former JPOs/SARCs who still work in the UN System
 - **“Retained - Former UN Staff”** which groups former JPOs/SARCs who worked within the UN System after their assignment, but currently have another professional activity or occupation, or who are now retired.
 - **“Not retained”** which groups former JPOs/SARCs who did not work with the UN System, or worked for less than six months within the UN System, after the completion of their assignment.
- More than 55% of all JAA members have been retained by the UN System after their JPO or SARC assignment for a period of at least 6 months.
- Based on available information, 38% of the JAA members currently work in the UN System.

Detailed breakdown:

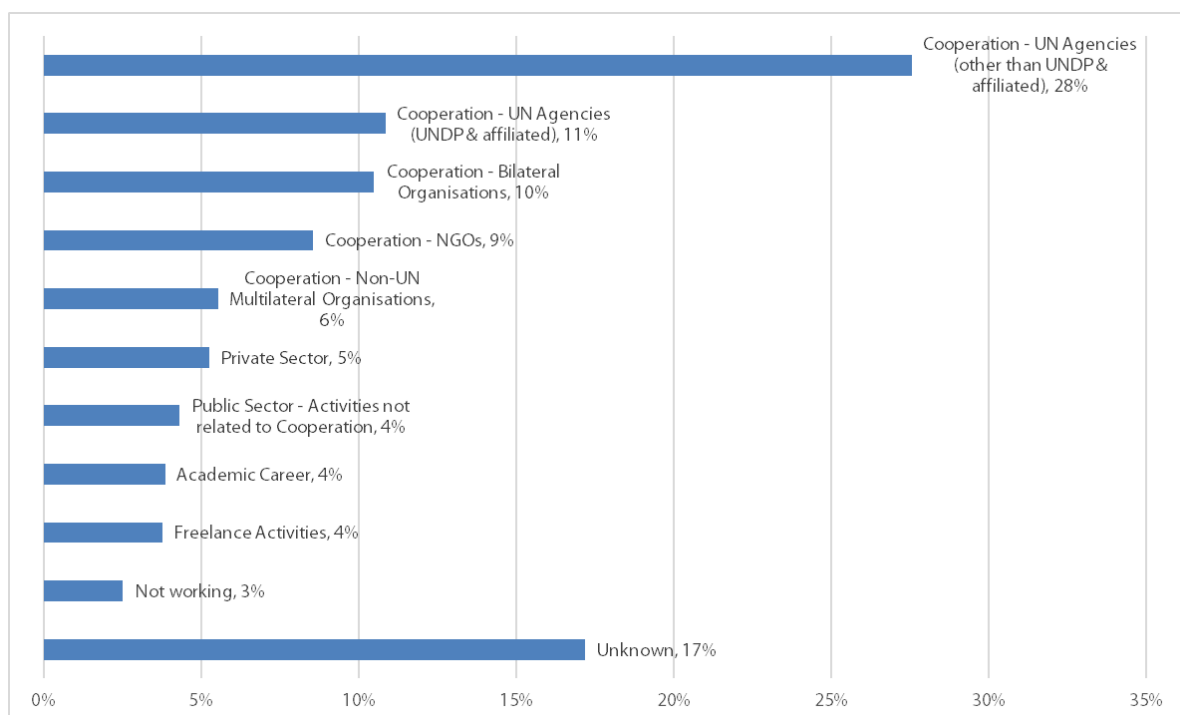

JAA Members by current Sector of Activity

Highlights:

- 63% of the JAA members work in the field of cooperation and humanitarian aid.
- Based on available information, only 5% of the JAA members work in the private sector. This has been consistent over the last few years.
- No information is available for 17% of the JAA group.

Detailed breakdown:

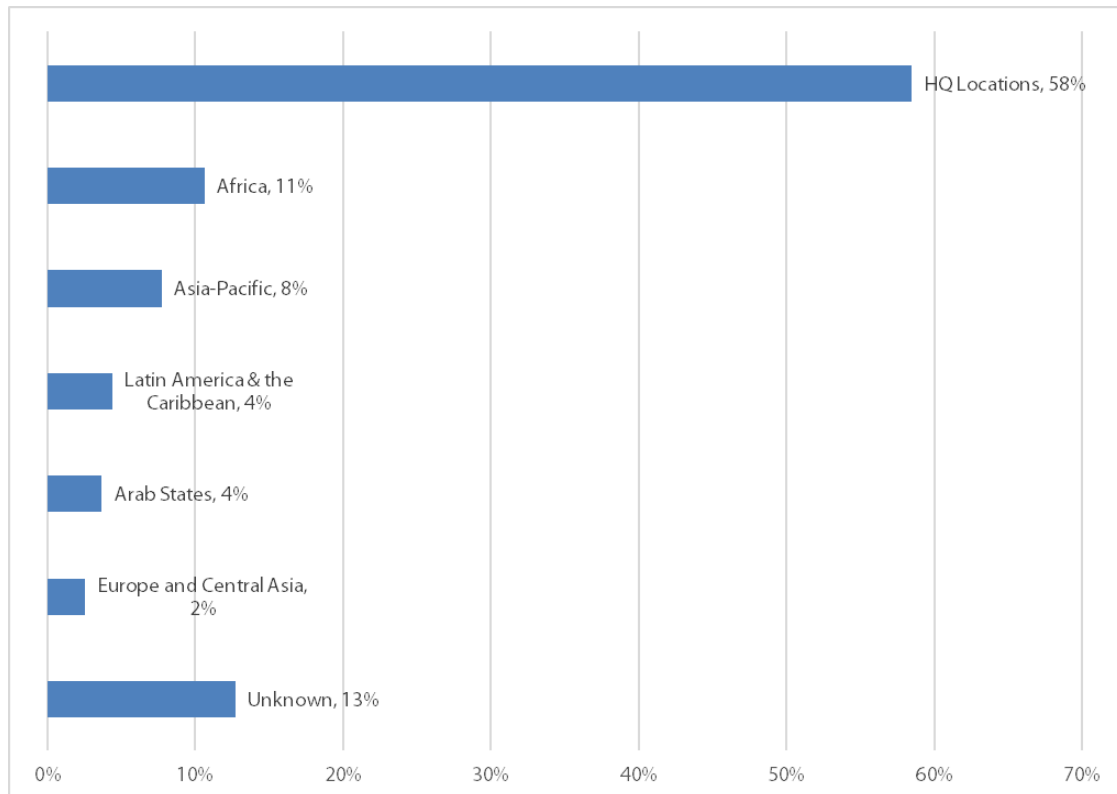

JAA Members by current Region of Residence

Highlights:

- Around 58% of JAA members live in developed countries (HQ Locations) – this level remains relatively stable over the years.

Detailed breakdown:
