## Entertainment in Cuenca

36. Cuenca is known as the Athens of Ecuador and has attractive tourist sites such as:

### Centro Histórico:

The Historic Centre is formed by the oldest residential area of the city. That is where most of the churches with architectural merit are located, along with the archaeological zone, the artisan neighborhoods of colonial origin, the central markets, and the Barranco del Tomebamba. Other must-see attractions: the Cathedral of the Immaculate, the Old Cathedral, the Calderón Park, the Flower Market, the Conceptas Museum, the Pumapungo Archaeological Museum, and the Plaza de San Francisco.

### El Barranco:

El Barranco, due to its historical and environmental values, constitutes one of the most important monumental sites in the Historic Centre of Cuenca, being the natural limit along the Tomebamba River between the historic center and the new city.

In the Barranco, in addition to the spectacular view, there are cafes and restaurants to enjoy a delicious evening while enjoying a privileged view. It contains about 120 architectural structures, protected as city assets. Here you can find countless attractions such as the Church of All Saints, the Broken Bridge, and the Downhill of All Saints.

### Parque Nacional Cajas:

The Cajas National Park is located 33 km from the city of Cuenca, at an altitude of between 3,100 and 4,600 meters above sea level. The Park has a total of 786 bodies of water, among which are around 165 lagoons with more than 1 hectare. This factor, added to the presence of migratory birds and the importance it has for the collection, storage, and provision of water for nearby populations, earned El Cajas National Park recognition as a Ramsar site and a Wetland of International Importance.
