COMPONENTS

WAVE GRAPHIC ELEMENTS

The wave graphic elements are movable and non-restricting. It can be placed anywhere depending on the editor’s choice.

LINKS

Styling of links can be with a graphic element or just plain text. Plain text links are enclosed in an arrow shape, while links with a graphic element is ended with a “⟶”. This will aide and signify the user that it is an actional button. Below are samples on how you can style the links.

LINKS with GRAPHIC ELEMENT

- Play and learn to stop disasters ⟷
- Making Of A Tsunami Evacuation Map ⟷

PLAIN TEXT LINKS

- Viet Nam to integrate Disaster Prevention education in the national school curriculum

FACTSHEET

Once a link is clicked, it tends to turn into a different color. To avoid this, place a shape with no fill and no outline on top of the text, and link the shape instead.
