

OQIBATDA:

Saraton va sil bilan kasallanish holatlari boshqa hududlarga nisbatan 50% ga ko'proq

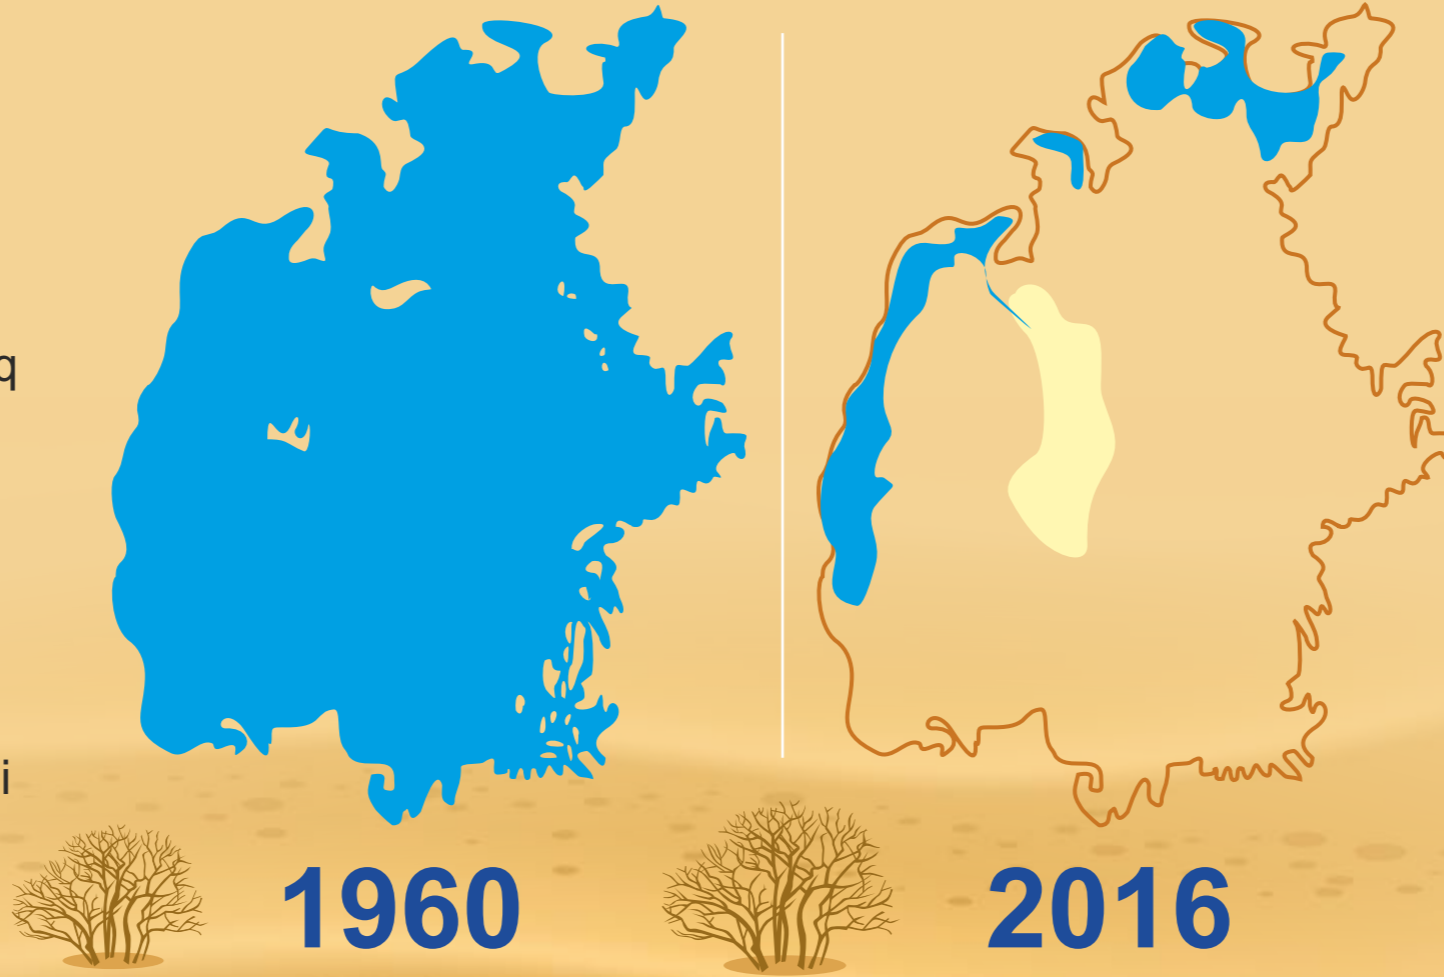

Aholining faqat yarmi toza ichimlik suvi bilan ta'minlangan

Kambag'allik ko'rsatkichi mintaqada eng yuqori darajada

75 million tonna zaharli tuzlar va qum shamol bilan butun mintaqaga tarqalmoqda

1960

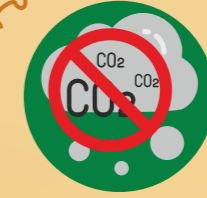

2016

u o'zining **90%** maydonini yo'qotib Orolqum cho'lga aylandi

MAQSADIMIZ:

Zaharli tuzlar va qumlarning Markaziy Osiyo va undan tashqarida tarqalishini oldini olish

Iqlim o'zgarishi oqibatlarini yumshatish – CO₂ chiqarilishi zararlarini kamaytirish

Dengiz tubini yashil o'rmon bilan qoplash – bioxilma-xillikni yaxshilash va atrof-muhitga ijobiy ta'sir qilish

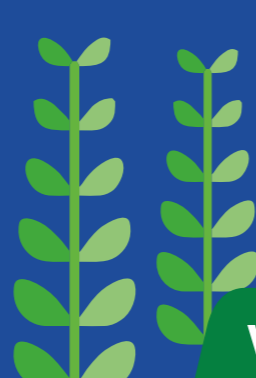

Orolbo'yi hududida yashovchi insonlar uchun barqaror yashash muhitini va yangi imkoniyatlarni yaratish

Siz qanday yordam berishingiz mumkin?

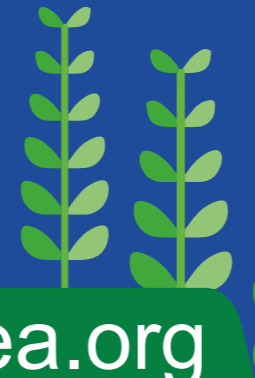

Saksovul ekish orqali. Ushbu QR koddan foydalanib, bir nechta harakatlar bilan siz bizga saksovul ko'chatlarini ekishga yordam berasiz

Ushbu tashabbus haqida ma'lumot tarqating va ko'proq insonlarni unga jalb qiling
