“

Our strategy

is guided by the sustainable development goals, we are improving access to basic services, and the overall quality of life of the Libyan population. IDPs are returning home and Municipalities are better equipped to respond to resident's needs, which contribute to increased trust and accountability leaving no one behind.

Mr. Marc-André Franche
UNDP Libya Resident Representative

”

“

Many international organizations have contributed to rebuilding and stabilizing Tawergha and its people. UNDP support is known for its fast delivery and the budget allocated through the Stabilization Facility for Libya. Wide range of support was provided in various sectors including public service, health, education, and infrastructure. This project was among others that contributed to the recovery of Tawergha and the return of its people
