

**Accelerating towards
a better and greener future!**

Tadamon Accelerator

An acceleration program for civil society organizations in OIC member countries to further develop and scale high-impact solutions by applying business tools and approaches.

Custom-designed curriculum

Expert-led training

One-on-one mentorship

Equity-free grants

Our Goal

Fuel **growth for innovations** addressing development challenges.

Bring changemakers together to drive progress towards **a sustainable future.**

Catalyze **positive change** and advance ecosystem development.

What we Provide?

Capacity-building

A tailored curriculum to further develop and grow high-impact innovations

Mentorship support

Mentorship led by world-class experts from UNDP, partners & impact investors

Resource mobilization

Skills & knowhow to attract funding and access to equity-free grants & investor networks

Networking & community building

Access to a thriving community of changemakers, investors and development partners

Spotlight

Showcase innovations and projects to boost their visibility

Our Approach

We engage a wide range of public and private, local and international partners to co-design open calls for innovations that tackle specific development challenges.

Launch joint open calls nationally, regionally or globally with our partners

Select a cohort of innovators with potential to advance the SDGs

Conduct a 8-14 week impact program that incubates and accelerates innovations

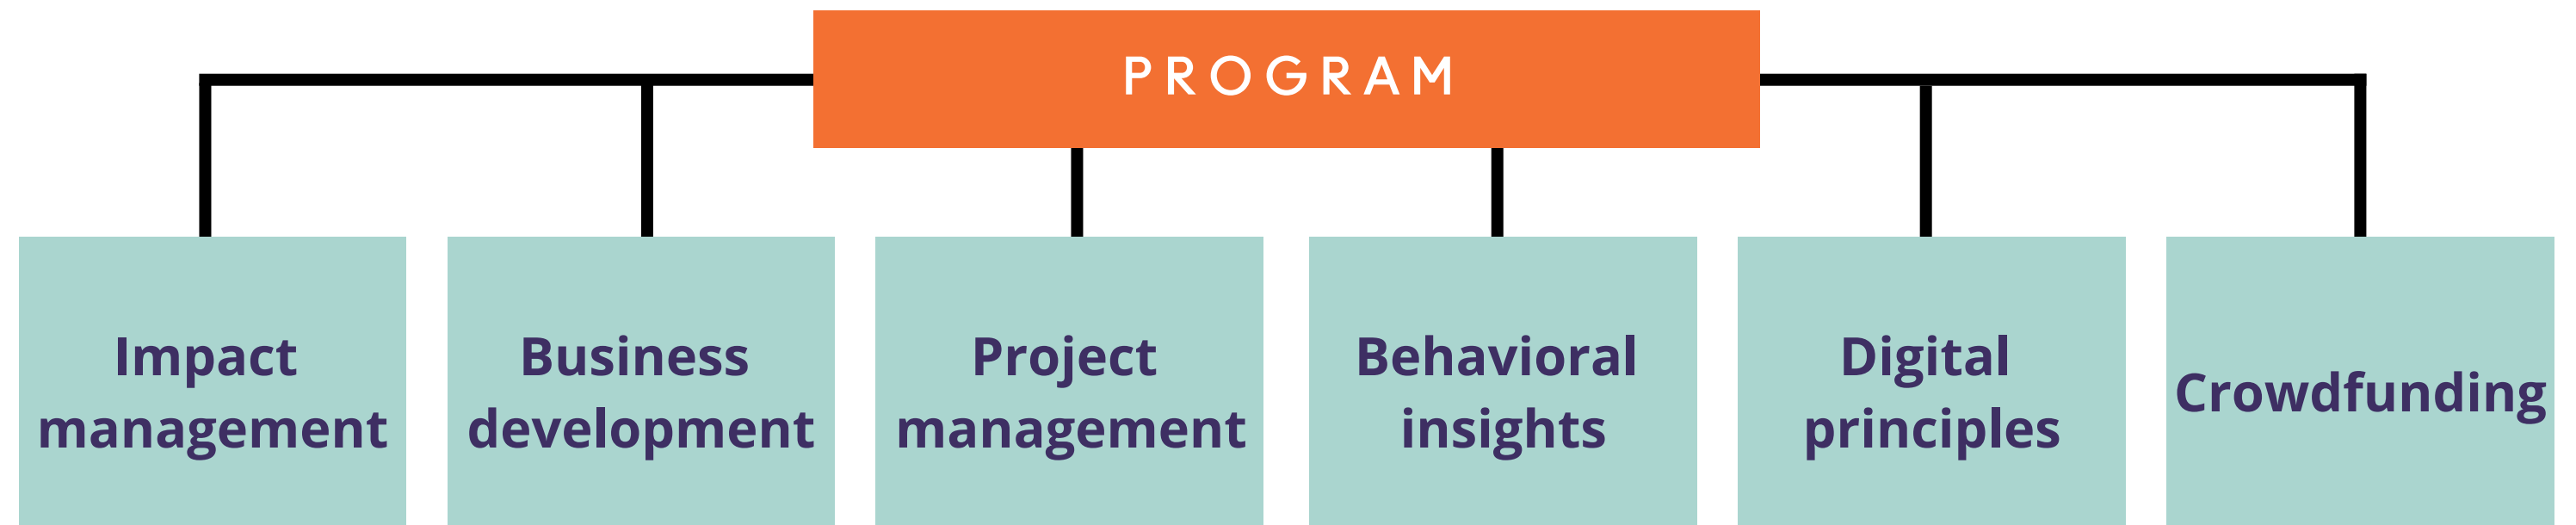

Craft tailored training and mentorship sessions in collaboration with partners

Award equity-free grants to the most promising innovations

Our Program

- During the program, participants follow a series of sprints that help them rethink, develop and scale their innovations.

- At the end of the program, participants showcase their innovations during our Demo Days.

Our Achievements

TADAMON Accelerator

BOOST Accelerator

Meet our Community

Clinic+O

Clinic+O graduated from our Tadamon Accelerator program to expand their technology-enabled primary care network that aims to provide access to quality, affordable healthcare to low-income communities in West Africa by integrating mobile technology and community health best practices into primary care treatment.

Innovation for Development

Developing a matchmaking intermediary platform for Turkish producers (SMEs) and buyers (public and private sector actors) to facilitate procurement of services and products developed by women and/or products related to the earthquake response.

Sudan Urban Development Think Tank

The project aims at improving the preparedness of residents in areas that are highly vulnerable to floods, while ensuring the inclusive and sustainable involvement of all stakeholders. The project seeks to use technology to improve responses and help build more resilient action plans in the context of climate change.

Our Offer

Co-design and jointly implement innovation challenges & acceleration programs

Train platforms/organizations to design incubation and/or acceleration programs

Train on specific topics such as impact measurement & management, business model development, crowdfunding etc.

Co-manage direct & indirect donations and investments

In addition, we also design tailored offers for our partners depending on their needs and strategy.

Powered by

The Islamic Development Bank is a multilateral development bank, working to improve the lives of those we serve by promoting social and economic development in Member countries and Muslim communities worldwide.

The Islamic Solidarity Fund for Development is an important member of IsDB Group, and contributes significantly to poverty reduction in member countries.

The United Nations Development Programme operates in over 170 countries and territories to eradicate poverty, reduce inequalities and exclusion, and promote sustainable development.
