the 2030 Agenda for
Sustainable Development

Why civil society organizations?

They are agile & responsive.

CSOs are crucial for tackling the numerous development challenges we face – from poverty and inequality to climate change and pollution.

They are embedded in the communities we serve.

CSOs have in-depth understanding of the needs and concerns of the most marginalized and hard-to-reach communities.

Let's join them at the frontline!

Our impact goal

Support 5,000 CSOs in OIC member countries by 2030!

Bolstering their organizational financial and programmatic resilience and relevance.

Propelling them to become key players in their national or regional communities.

Partnering is trust, it's faith in each other, a commitment to collaboration, to lift one another, it's a journey of growth, of learning and sharing, a pathway to success that's worth all the daring.

So let's partner up, let's take on the world, with our minds and our hearts, let's unfurl, a future of promise, of growth and of light, together we'll soar, and everything will be all right.
