Spain	When referring to South-South cooperation throughout the document, it's important to also include triangular cooperation, highlighting the potential role of UNDP as a facilitator of such alliances.	Triangular cooperation is always mentioned together with South-South cooperation in the document (paragraphs 6, 8, 40 and output 4.4). UNDP role as facilitator is highlighted in paragraph 8.	UNDP role as facilitator is highlighted in paragraph 8.
	Indigenous peoples and Afro and quilombola populations are only mentioned in the descriptive/narrative part. It would be interesting to include UNDP's strategy to engage and work with these groups, both in terms of democratic governance and political participation, as well as in territorial and environmental governance.	UNDP appreciates the comment and inserted UNDP's strategy to engage with Indigenous peoples and Afro Brazilians (including quilombolas) in terms of democratic governance and political participation in paragraph 39.	Inserted UNDP's strategy to engage in terms of democratic governance and political participation in paragraph 39.
	Spanish Cooperation is currently engaged in two of the CPD's objectives. We could explore potential synergies and opportunities for future collaborations: strengthening women's economic empowerment and leadership restoration of degraded areas, and territorial management — all while protecting indigenous people, women, traditional communities and rural populations.	UNDP appreciates the comment and will engage with Spanish Cooperation in the country to explore potential synergies and opportunities both in the suggested and other areas.
