

Community Infrastructures for Resilience (CIReP)

Community Infrastructure for Resilience Project (CIReP) aims to safeguard rural communities by strengthening resilience of community infrastructures, ensuring access to basic services such as health, education, markets, irrigation, water, and sanitation, which are vital assets to enhance people's lives and livelihoods.

40 COMMUNITY INFRASTRUCTURES

The CIReP supports construction/ rehabilitation of 40 community infrastructures that enable people to have better access to various basic services.

GENDER-EQUAL EMPLOYMENT

The CIReP creates short-term employment to communities (women 50%) by engaging them in the construction and rehabilitation work.

COMMUNITY INFRASTRUCTURES TO BUILD/RENOVATE

water supply

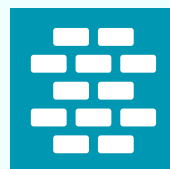

public latrine & toilets

bridges

rainwater harvesting systems

gabion/retaining wall

maternity health centres

community centres & schools
