

Yemen Food Security Response and Resilience Project (FSRRP) – June 2024

PROJECT INFORMATION

Funded by the World Bank’s International Development Association (IDA), the Yemen Food Security Response and Resilience Project (FSRRP) is implemented by the United Nations Development Programme (UNDP), the Food and Agriculture Organization of the United Nations (FAO), and the World Food Programme.

UNDP’s component of FSRRP improves agricultural production infrastructure and builds climate resilience in partnership with the Social Fund for Development (SFD) and the Public Works Project (PWP).

SNAPSHOT

US\$ 64 million

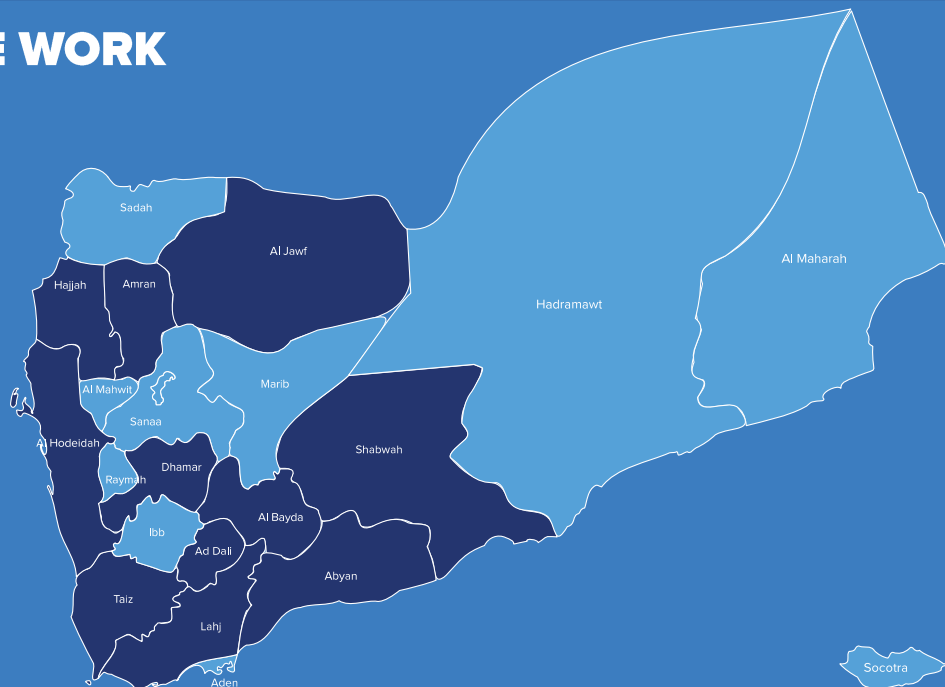

Across 47 Districts

Ends in June 2025

WHERE WE WORK

Yemen Food Security Response and Resilience Project (FSRRP)

IMPACT SO FAR

673,995 workdays created (**85,831** for women)

20,267 people benefited from work opportunities (**2,767** women)

17,631 households with improved food security (**30%** expected to be female-headed)

3,348 farmers with improved access to water resources (**781** women)

10,944 farmers with improved access to land resources (**2,435** women)

99 kilometres of improved agricultural roads

20,924 cubic metres of constructed and improved rainwater harvesting tanks

3,935 hectares of improved and protected lands

21,212 metres of constructed and improved irrigation canals

5,722 hectares of irrigated agricultural lands

Building resilience: Supporting farmers to face the impact of climate change in Yemen

FSRRP interventions transform agricultural production in Yemen

In Hodeidah Governorate, climate change has delivered a double blow to agriculture, with intense floods ravaging farmlands and scorching heatwaves decimating crops across Al-Sukhnah and Al-Mansouriyah districts. This devastating combination has further exacerbated the already dire food insecurity situation in the region.

UNDP Yemen's **Food Security Response and Resilience Project (FSRRP)** is responding to the crisis by contributing to protecting and restoring agricultural lands to improve food security in the area. FSRRP is implemented in partnership with the Social Fund for Development (SFD) and the Public Works Project (PWP) to build agricultural climate resilience and improve household food security and basic economic recovery.
