### PROJECT INFORMATION

<b>Project ID:</b>	00090975(DIM) ,00090976 (DIM), 00090977(DIM)
<b>Project Duration:</b>	(July 2014 – Dec 2016)
<b>Reporting Period:</b>	July-December, 2014
<b>ANDS Component:</b>	Governance, Rule of Law and Human Rights: Strengthen democratic processes and institutions, human rights, the rule of law, delivery of public services and government accountability.
<b>Contributing to NPP:</b>	2.3. A. To strengthen policy, legal and regulatory frameworks governing the civil service and Public Administration Reform 2.3.B. to increase civil service and public administration operational efficiency and effectiveness at the central, ministry and sub-national levels of government Output 3.3. Strengthened capacity of government for implementation agenda and policy management
<b>CPAP Outcome:</b>	Inclusive legislation, policies and programmes are in place and Government Institutions are strengthened to improve the quality of services delivery
<b>UNDP Strategic Plan Component:</b>	
<b>Total Budget:</b>	US\$ 3,240,000
<b>2014 Annual Budget:</b>	US\$ 540,780
<b>Unfunded Amount:</b>	
<b>Implementing Partner:</b>	UNDP
<b>Responsible Parties:</b>	Office of The chief of Staff to The President and The Office of Administrative Affairs and Council of Ministers' Secretariat, UNDP
<b>Project Manager:</b>	Ghulam Rasoul Fariwar (portfolio manager/Acting
<b>Chief Technical Advisor:</b>	Project manager
<b>Responsible Assistance Country Director:</b>	Ahmad Masood Amer

## ACRONYMS

AWP	Annual Work Plan
CoS	The Chief of Staff of the President
CoSo	Chief of Staff's Office
ICT	Information Communication Technology
M&E	Monitoring and Evaluation
NSGP	National State Governance Project
OAA	Office of Administrative Affairs
OoP	Office of the President
CoMS	Council of Ministers' Secretariat
UNDP	United Nations Development Programmes
VP <sub>1</sub>	Office of the First Vice-President
VP <sub>2</sub>	Office of the Second Vice-President
VPOs	Vice Presidents' Offices
SIGOB	A product of the United Nations Development Program's Regional Bureau for Latin America and the Caribbean (RBLAC- UNDP) aiming to digitalize government business processes.

## I. EXECUTIVE SUMMARY

Strengthening National Policy Planning and Management Capacity (SNPPMC) is the follow up of National State Governance Project (NSGP) with a distinct focus on improving policy planning, implementation, and decision making mechanism at the central government level. The project commenced on 1<sup>st</sup> July 2014 and coincided with the power transition and structural changes by the new government. In view of changes in the project's counterparts structure (Chief of Staff Office (CoSo) merged with the Office of the Administrative Affairs), the Project Board has decided a revision of project document and has assigned a task force to review the scope and focus of the project and submit a revised draft to the Project Board for endorsement.

Political uncertainty, stemmed from election crisis, and absence of the project management team, as the two most important challenges, have hampered the project implementation. However, the project has been able to deliver on some of the activities as followings:

SIGOB/TRANSDOC (Digital Correspondence Management System) implementation continued at the Office of Administrative Affairs (OAA). The application translated in Dari and adjusted to OAA's working flows. In addition to installation of the application, 4 staff at OAA M&E department were coached/trained on how to use TRANADOC system. The implementation slowed down after merger of CoSo and OAA and when new officials were appointed by the president.

During the reporting period, several consultation meetings were conducted both at the senior management and technical level to discuss new priorities and needs of newly established Administrative Office of The President (AoP) and Vice President Offices. Strengthening policy making cycle, Automation of business processes, improvement of ICT infrastructure, support to public communication and capacity development are amongst the pressing needs and priorities expressed by new officials. The project document revision taskforce will take note of all the needs during the revision process.

In terms of Project management, SNPPMC project team was not fully established due to political uncertainty and recruitment challenges. The recruitment of technical Specialist (policy & planning) was finalized. The selected candidate will be on board on early or mid-February 2015. In addition, recruitment of Admin/finance was finalized but the selected candidate refused to join the project, thus the position was advertised. The overall project delivery rate is 87%

## II. RESULTS

### A. OUTPUT 1: Manage the process of national policy planning, development and decision making at the office of the president

During the reporting period (Q3 & Q4), both Administrations (President Karzai's and Presidents Ghani's Administrations) were not able to reform policy making mechanism. The third quarter (Karzai Administration) characterized with political instability and officials have been in a 'wait and see mode, and reluctant to work on policy making process. The 4<sup>th</sup> quarter (President Ghani's Administration) characterized with continued structural changes and new officials were not certain about new priorities. Thus the project has not been able to make significant progress in achieving this output. However, some activities have been undertaken related to Output 1 as following.

#### **Indicators 1.1: The extent the legal framework is robust and support effective policy/decision making**

Nothing specific to report.

#### **Indicator 1.2 – The extent the government business processes and procedures are clear and the mechanism (Cabinet and Cabinet Committees) are operational.**

During the reporting period, SNPPMC continued supporting installation of SIGOB-TRANSDOC for the office of Administrative Affairs. TRANSDOC, The document transparency system, designed to digitalize document management system and make the correspondence system more transparent. TRANADOC has been installed at the M&E unit of OAA. The implementation suspended when new officials appointed for OAA. New officials needed time to review the system and make sure data security and privacy is fully maintained. A SIGOB mission is planned to visit Afghanistan and discuss their concerns and the way forward with the implementation. However, Following actions have been taken so far to implement SIGOB at OAA:

- TRANSDOC System installed after corrections were made to the final conversion in Dari in the applications server,
- Working Procedures adequately defined, analysed and adjusted to staff of M & E Department to work with the Management System,
- Counterpart operational staff trained to gather information according to the parameterization standards featured in documents and the network member's profiles,
- Counterpart operational staff trained in the application on the Management System module parameterization,
- Personal operational counterpart trained as a facilitator to train OAA users in the TRANSDOC Systems,
- All staff members of the M & E Department, Administration, Expert, Director and Assistant trained in the use of Transparency System,

- Workstations of the M & E Department with the user version properly installed and ready for use by personnel in the management system work,
- Workstations of how to use the System TRANSDOC adjusted translated and delivered to M & E Department as support in using the system,
- Work process, external and internal management documents with internal and external destination,
- M&E expert, and SIGOB coordinator.

In addition, SNPPMC continued supporting the State Citizenry Centre (SCC) at the first voice president office. The State Citizenry Centre which has been equipped by UNDP through NSGP Project, bridges the distance between the government and the public through toll free number 311. SNPPMC supported the payment of salaries for 7 call centre operators whose job is to respond to incoming calls from the public and submit the complaints and information to vice president office for follow up and response. Further to that, operators at SCC provided daily news brief to the voice presidents.

### **EXPENSES FOR THE YEAR**

During the year, a total of USD 437,151 was spent for this output. For more details, please look at Annex 2.

Below is a snapshot of where SNPPMC is in relation to its annual targets by end of 2014

Table 1 Output 1, 2014

2014 Baseline	2014 Annual Targets	Planned	Actual	Comments
1.1. System Procedures not defined and system ill-coordinated	1.2. Simplified guidelines, SoPs, and formats in place for policy planning and management. 1.3. The mechanism for policy and decision making effectively strengthened	1. Provide advisory support on policy and reform to OA, VPOs and CoS and overall management of the project 2. Recruitment of national and international experts to identify areas for reform 3. Holding of consultative meetings and workshops involving LMs, departments and other government agencies as relevant 3. Installation of SIGOB (documentation management module) completing remaining activity of SIGOB project 4. Strengthening capacity of M&E directorate at OAA	1. <b>SIGOB/TRANSDOC:</b> <ul style="list-style-type: none"> <li>• Application server installed and configured</li> <li>• Virtual server configured for the TRANSDOC System</li> <li>• TRANSDOC System installed.</li> <li>• Working Procedures adequately defined, analyzed and adjusted to staff M &amp; E Department to work with the Management System.</li> <li>• Counterpart operational staff trained to gather information according to the parameterization standards featured in documents and the network members profiles</li> </ul>	Behind the target. Implementation to be carried out to the next year
1.4. Remits of ministries unclear	1.2 Simplified guidelines, SoPs, and formats in place for policy planning and management.	1. Recruitment of experts for developing guidelines for cabinet, cabinet committees, and line ministries 2. Strengthening capacity of sectoral analysts at OAA	1. 4 staff at M&E department trained on how to use TRANSDOC application	Behind the target. Planned activities shall be carried out to the next year

	1.3 The mechanism for policy and decision making effectively strengthened	through provision of relevant training, on the job training, exposure visits and twinning arrangement 3. Provide exposure opportunities for relevant staff at OAA		
1.5. Cabinet committees dysfunctional	1.4 Simplified guidelines, SoPs, and formats in place for policy planning and management. 1.5 the mechanism for policy and decision making effectively strengthened	1. Recruit national and international experts to be deployed to cabinet committees 2. Provide relevant training and capacity building support to Committee staff	No action has been taken	Behind the target. planned activities shall be carried out to the next Year

## B. OUTPUT2: The Chief of Staff Office Has the Requisite Capacity to Effectively Deliver its Mandate

Chief of Staff Office has been merged with the office of Administrative Affairs in the 4<sup>th</sup> quarter of 2014. Although a number of consultation meetings were conducted in the third quarter and capacity development needs identified, but since the office has been merged with OAA, no action has been taken in the 4<sup>th</sup> quarter. Following are the result of consultation conducted in the third quarter:

**Indicator 2.1 – installation of relevant software and enhancing hardware capacity of the ICT unit.**

**1: Development of Financial Management Information System (FMIS) for the Chief of Staff Office:** it was agreed that an international and a national ICT expert shall be recruited to develop FMIS for CoSo and train relevant staff to operate and maintain the system. The ToR for international expert drafted by CoSo and shared with UNDP for review and comments. This initiation will be followed up further with the new government in the next quarter.

**2: ICT Trainings:** After a training need assessment, CoSo has identified a number of trainings needs such ITIL intermediate level, CCNP SR/Ethical Hacking, CCNA Voice/CPT1/CAPS/Exchange Server administration, and share point server-admin/configuration. Trainings identified by CoSo will be reviewed with the new administration in the next quarter and required support will be provided to train ICT staff.

**3: Software Needs:** CoSo has identified several software needs such as Anti-Virus license renewal for 250 users, Cyberoam License, and Call Manager CDR billing Software. ICT software needs will be reviewed in consultation with new administration to confirm the needs as per their priorities.

### EXPENSES FOR THE QUARTER

During 2014, a total of USD 18,092 was spent for this output. For more details, please look at Annex 2.

Below is a snapshot of where SNPPMC is in relation to its annual targets by end of 2014

Table 2 Output 2, 2014

2014 Baseline	2014 Annual Targets	Planned	Actual	Comments
<p><b>Baseline 2.1 – Capacity of the ICT and Finance departments need to be strengthened</b></p>	<p>Target 2.1 – The operational capacity of the CoS Office strengthened to provide effective communication and information management and administrative support to the CoS Office</p>	<ol style="list-style-type: none"> <li>1. Provide relevant hardware and software for enhancing information management system and capacity of the IT unit</li> <li>2. Conduct capacity assessment and develop capacity building strategy</li> <li>3. Provide relevant training and capacity building support to ICT, HR and Finance units</li> </ol>	<ol style="list-style-type: none"> <li>1. A rapid assessment has been done. Trainings need identified. Hardware and software needs identified.</li> <li>2. ToRs for international and National ICT/Software Development experts drafted and under review by UNDP</li> </ol>	<p>CoSo has been merged with OAA, no further actions need to be taken on this output.</p>

## C. OUTPUT 3: SNPPMC project operation and management

SNPPMC project started in July 2014, at the middle of political uncertainty due to election disputes. The project overall implementation was significantly affected by aforementioned uncertainty in the third quarter of 2014. The project also continued to suffer from structural changes in the last quarter of 2014. After the merger of the Chief of Staff office with the Office of Administrative Affairs, new high ranking officials hired in the Administrative Office of the President. New authorities needed time to complete internal restructuring and getting familiar with the project. Considering the situation, SNPPMC Annual Work Plan for 2014 was revised in November aiming to release the extra funds to be allocated to other UNDP projects.

The Project board Meeting was conducted on 18<sup>th</sup> December 2014 and following decisions were undertaken:

1. The Project Document shall be reviewed and recent changes in the government structure need to be taken into consideration. The project needs to be re-aligned with priorities of new government.
2. Project review committee was established and tasked to prepare the revised project document and submit it to the next board meeting for endorsement. The project review team composed from representatives of AOP (4) VP1 (1), VP2 (1), OSRGG (2) and From UNDP (1).
3. An interim annual work plan for the current project would be prepared to avoid hampering current ongoing activities. A comprehensive annual work plan would be prepared once the revised project document approved by the board meeting

### Indicators:

#### **4.1: AWP, HR, Procurement and M&E plans approved as per established CO Timeline and reviewed on a quarterly basis.**

1. AWP, HR plan, Procurement plan, reviewed and revised in November 2014
2. Recruitment of technical specialist (policy & Planning) finalized. The successful candidate will join the project in February 2015. Project Admin and Finance recruitment was finalized and the offer was sent in November but the candidate refused to join the project, thus the position was re-advertised.

#### **4.2: % of project Delivery**

Overall project delivery for the 2014 is 87%

## EXPENSES FOR THE Year

During 2014, a total of USD 14,788 was spent for this output. For more details, please look at Annex 2.

Below is a snapshot of where SNPPMC Output 3 stands in relation to its annual targets after Q3

Table 3 Output in 2014

2014 Baseline	2014 Annual Targets	Planned	Actual	Comments
Newly approved project document, implementation not started.	4.1: Achievement of AWP outputs 4.2: Effective and Efficient management and reporting of resources (receivables, budgets, expense, personnel and assets) 4.3: Above 75 % project delivery by 31 December, 2014	1. Recruitment of project manager 2. recruitment of project operation associate 3. recruitment admin/clerk 4. recruitment of driver	1. Project manager Recruitment finalized 2. Admin/Finance post advertised 3. Admin Clerk/driver recruited 4. 87% delivery	on target

### III. GENDER SPECIFIC RESULTS

Nothing specific to report.

### IV. PARTNERSHIPS

No partnerships have been concluded during the reporting period.

### V. ISSUES

1. The new government announced new priorities and merged the office of the chief of staff with the office of Administrative Affairs (the two main government counterparts of the project). In view of that, the project document need to be reviewed and revised in consultations with new government authorities to make sure it's aligned with the new priorities. The project board has decided on the revision of the project document but no progress has been made due to continued restructuring of the Administrative office of the President.
2. A new official request has been made to UNDP by Ahmad Zia Masood's Office, the Office of President Special Representative for reform and good governance, to support the development of national programme on good governance. Though, the proposed intervention is not directly mentioned in the current project document, but it is well aligned with overall focus of the project which is policy support. If UNDP decides to support this intervention, it should be considered during the project revision process

### VI. RISKS

1. Political Uncertainty makes government counterparts reluctant to fully implement the project
2. Changes by new government administration may hamper project delivery as new people may come on board in the government with new priorities.
3. Delay in Recruitment of project team hampers project implementation

## VII. LESSONS LEARNED

From our working relationship with multiple government counterparts ( Chief of Staff office, Office of Administrative Affairs, and Vice Presidents offices, we learned that it would be quite effective if we deal officially with one government focal point designated by all other counterpart for official decisions and official signatures. Meanwhile at the technical level we need to keep consulting all of counterparts during planning and implementation process.

## VIII. FUTURE PLAN

In view of changes in the government, the project document will be revised in consultation of all stakeholders

### Output 1:

- Provide support to development of the national Programme on good governance
- Provide advice to Ahmad Zia Masood's office of anti-corruption Agenda
- Recruitment of national and international experts to identify areas for reform
- Holding of consultative meetings and workshops involving LMs, departments and other government agencies as relevant
- Support automation of business processes and roll out SIGOB TRANSDOC to other units of AOP
- Provide necessary training and exposure visits opportunities for staff at AOP and vice president offices
- Re-activate the call center at the first vice president office
- Explore new areas for support at the Administrative Office of the President, Vice President Offices, and the office of the President's Special Representative on Reform and Good Governance

### Output 2:

- Note Applicable; Chief of Staff office has been merged with OAA

### Output 3:

- Finalize the recruitment of project team
  - Prepare Interim AWP, HR and PP for the next year.

## IX. ANNEXES

### ANNEX 1: FINANCIAL TABLE

#### Interim Donor Report for the period January - December 2014 for Strengthening National Policy Planning and Management Capacity (SNPPMC)
