

EMPLOYMENT PROMOTION PROGRAMMES REFORM

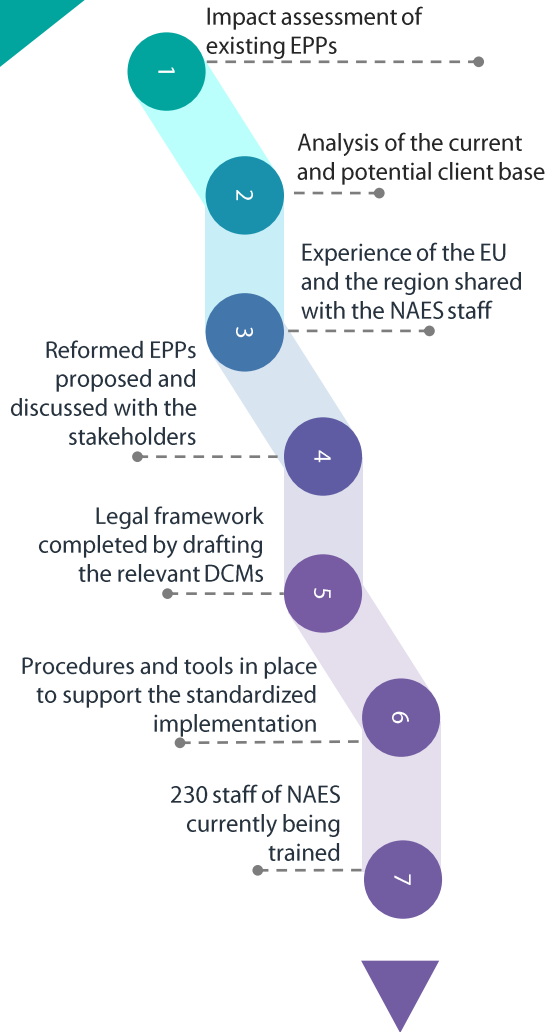

SD4E programme aims to support the National Agency for Employment and Skills (NAES) in optimizing its EPPs portfolio and provision, as set out in

the objectives of the National Employment and Skills Strategy. The NAES aims to develop and deliver a service portfolio that is based on a balanced demand- and supply side-oriented approach, recognizing and fostering the potential of various groups of job seekers through tailored action plans and mediation measures.

On-the-job Training

Aims to train jobseekers, who do not have any qualification, at the workplace, providing a subsidy for the duration of 4-month period for all types of professions, based on an approved training plan, and supervised by a trainer of the employer.

Employment

One year subsidized employment contract, the needs of the jobseekers are matched with the profile of the employer. The wage is defined by the employer, based on the market salary rates for the particular job.

Internship

Ensure a quick transition to the labour market of the recent graduates, in the same or similar area of study of the graduate, for a duration of 6-month period.

Self-Employment

Start business programme that provides a financial grant and mentoring for unemployed jobseekers, who have a proven viable and marketable business idea and plan.

Community Employment

Clear focus on workforce training and is designed to place the work experience offered near to the labour market, in line with the local and geographical employment opportunities, in partnership with the Community and NGO/voluntary organizations.
