Udruga proizvođača sira "Cincar" | Cheese Producers Association "Cincar"

Udruga baštini proizvodnju livanjskog sira po tradicionalnoj recepturi čija proizvodnja datira još iz vremena Austro-Ugarske monarhije (1886. godine). Na ovom području postoje idealni uvjeti za proizvodnju tvrdoga sira: specifičnosti biljnoga pokrivača planinskoga područja, klimatski uvjeti i mlijeko autohtone ovce pramenke. Ima umjereni slan i pikantan okus. Često se može naći na stolu u kombinaciji s različitim suhomesnatim proizvodima. Pored tvrdoga sira, udruga proizvodi i druge tradicionalne proizvode, kao što su: mladi sir, ljuta ovčja varenika, puter, provaru i surutku.

The association bases its cheese production on technology that dates back to the Austro-Hungarian times (1886). Livno area has ideal conditions for the production of hard cheese: the specific nature of flora in the mountain region, the climate and the milk of the indigenous dairy sheep. Livno cheese belongs to the sheep cheese category, and is made of non-pasteurized milk, with improved taste through combining sheep and cow milk in 80:20 ratio. Livno cheese is moderately salty and piquant. It can often be found combined with different smoked meat delicacies. Association also makes other traditional products, such as: young cheese, spicy sheep's milk, butter, whey cheese and whey.
