

International Year of Volunteers  
10th anniversary  
2011

## UNV-India invites photographs showcasing 'Volunteering to make a Difference'

### Context

To draw attention to the dedicated community of volunteers and to mark IYV+10, UNV-India proposes **publishing a special volume on Volunteerism** which would further advance the recognition and promotion of volunteerism and enhance its facilitation at the local, national and international levels.

This UNV-India publication will be a small effort at promoting the value addition that volunteers bring to national development priorities. We would like to invite **photographs** to be included in the publication on volunteerism during 2011. The publication will focus on how volunteers have been able to speed up the pace of progress toward the Millennium Development Goals by integrating volunteerism into their work.

Theme	Volunteering to make a difference
