KYRGYZSTAN ELECTORAL SUPPORT PROGRAMME
KEY ACHIEVEMENTS FOR THE PERIOD OF 2020 – 2021

CEC officials’ capacity building to improve voters’ lists and training
Around 6,500 CEC officials participated in 315 trainings on inclusiveness of voters’ lists. In total 14,880 posters, 11,900 brochures and 600 guides for the election support were printed.

Mobile voter registration
From 10 July to 16 September 2020, CEC organized 9 online meetings with the representatives of Kyrgyz diasporas abroad, which attracted 296 participants.
The mobile registration team was deployed to organize 33 meetings with Kyrgyz migrants in Turkey, USA, Italy, Russia and Kazakhstan (in 31 cities) from 22 August to 28 September 2020. The number of registered citizens abroad had increased from 12,500 in April 2020 to 49,479 in January 2021.

Procurement of election equipment:
CEC procured equipment such as laptops, TV screens and fingerprint scanners, which facilitated the biometrics-based voter identification system.

CEC’s capacity building on cyber security
In September, 20,500 PEC/CEC personnels joined 26 online cyber security trainings
Mobile voter registration
For local elections in April
- Based on the agreements with the Russian Federation, the Kyrgyz Republic and Kazakhstan, around 300,000 Kyrgyz citizens abroad provided bimetallic data by April.
- the CEC and SRS arranged 11 buses for the mobile registration activities. In total, more than 3,000 Kyrgyz citizens used the services provided by the buses

For the parliamentary election in November
- 10 mobile groups were deployed in the period between 21 September to 15 November.
- 11 polling stations were newly set up in New York, Chicago (USA); Kazan, Krasnodar, Samara, Tomsk, Khabarovsk (Russia); Antalya (Turkey); Cagliari (Italy), and Hungary (Budapest).
- By November 2021, 59 polling stations were established in 29 states where 75,651 people passed biometric registration.
- The number of overseas voters had quadrupled from 18,580 to 84,128 in the period between October 2017 to November 2021.

Training on equipment use
Towards the parliamentary election in November, 18,000 copies of 5 manuals were disseminated among PECs and TECs. 5,000 biometrics (BI) operators and 600 representatives of the technical support groups attended online training on voter registration and how to use election equipment with the online platform.
