# **THE GLOBAL GOALS**

For Sustainable Development

## TRANSFORMING OUR WORLD

The Sustainable Development Goals aim to end poverty by 2030. World leaders have set a plan of action for people, planet and prosperity. Eradicating poverty in all its forms and dimensions, including extreme poverty, is the greatest global challenge and an indispensable requirement for sustainable development.

The 17 SDGs build on the Millennium Development Goals and complete what they did not achieve. They seek to realize the human rights of all and to achieve gender equality and the empowerment of all women and girls. They are integrated and indivisible and balance the three dimensions of sustainable development: the economic, social and environmental.
