Sustainable Development for a Greener Future

The
UPRISING
Beach Resort

1. Carbon Neutral

- Offsetting the resort's carbon emissions
- Allowing our customers to offset their own vacation
- Offsetting the emissions of our customers' flights

8 Sustainable Development Goals for a Greener Future

1. Carbon Neutral
2. Single-use Plastic Free
3. Low Wastage
4. Energy Efficient
5. Eco-responsible Activities
6. Homegrown Goods Empowered
7. Wised-up Personnel
8. Regional Driver to Sustainability

2. Single-use Plastic Free

- Getting rid of single-use toiletry amenities
- Getting rid of plastic take-away containers and straws
- Getting rid of wrapping cellophane

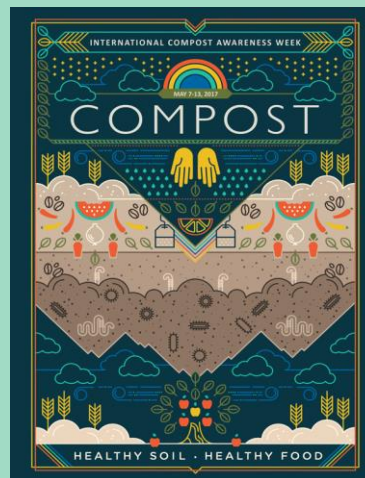

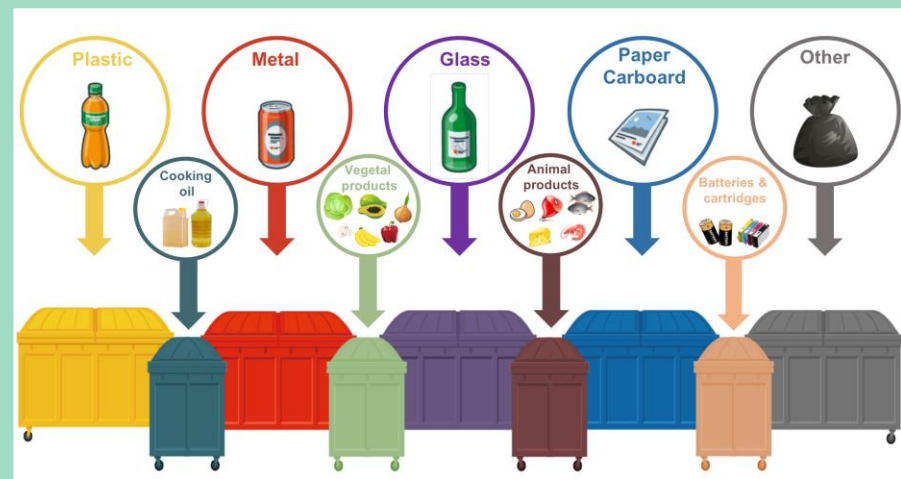

3. Low Wastage

- Improve the “linen reuse programme” in guest rooms
- Install water-saving devices on each tap and shower
- Use rain/grey water for toilets
- Compost green waste
- Partner with recycling and upcycling organizations

4. Energy Efficient

- Install energy-saving light bulbs
- Create a fully sustainable dormitory
- Progressively install renewable energy for each bure

5. Eco-responsible Activities

- Advertise only eco-responsible activities
- Offer only eco-responsible activities

6. Homegrown Goods Empowered

- Utilize more local products in our dishes
- Find nearby producers to reduce transportation and importation
- Grow in our own garden

7. Wised-up Personnel

- Make the staff aware of environmental issues
- Regular environmental work and workshops
- Financing environmental online courses

8. Regional Driver to Sustainability

- Act as an example
- Encourage and support eco-responsible changes
- Partner with green businesses
- Advertise green businesses only
