SITUATION UPDATE

A momentum of the Constitutional Review Process was built in the beginning of 2016 with tangible results being achieved by the Constitutional Stakeholders such as the tabling in the Parliament of the comprehensive report of the Oversight Committee (OC) that revised ten chapters of the Constitution.

The Speakers Forum hosted by the National Federal Parliament Leadership with state assembly speakers of South West, Galmudug and Jubaland State assemblies was a milestone as it discussed the ongoing constitutional review process. As a result an MoU was signed between the Parliaments on cooperation among the legislative bodies for this process.

Option papers for a number of contentious issues, such as Police and Courts, stability measures of the Parliament, and others, have been prepared and will be presented during the regional consultations, thus providing a platform for discussion and possible agreement to be reached during these consultations at the state level and national level.

In March, the public outreach and general civic education on constitutional review process was launched in Baidoa, with a regional consultation hosted by the Southwest State Administration, organized by the Federal Ministry of Constitutional Affairs that brought together members of mandated institutions including the Independent Constitutional Review and Implementation Commission, and funded by the project.

These key achievements during this quarter lay out the foundations for the remaining State Level Consultations and Civic Education, as well as National Consultation that will take place in the next quarter. These will be the privileged platform for dialogue and consensus building on the 10 chapters already revised, and possibly on some of the contentious issues and preferred option.

NARRATIVE

OUTCOME 1: INCLUSIVE CONSTITUTIONAL REVIEW PROCESS ACTIVELY IN PLACE AND ENGAGING KEY NATIONAL AND INTERNATIONAL STAKEHOLDERS.

The revision of 10 chapters of the constitution was completed in January by the Oversight Committee and ICRIC in Nairobi, also counting with the presence of UN experts, and the support of Max Plank. This revision culminated with the tabling of a comprehensive report of the OC with the revisions agreed between OC and ICRIC for the version to be tabled in the parliament.

A preliminary revision of the remaining contentious five chapters of the Constitution took place in Feb 2016 at Naivasha-Kenya. UNDP Constitutional Making Expert was amongst the panel of experts that participated and provided substantive advisory support in the revision exercise.

The reviewed and agreed ten chapters were tabled at the parliament on 15 February in the presence of the Speakers of the Regional Parliaments, Prime-Minister and Minister of Constitutional. This was a milestone in the process of revision of the provisional constitution as, with the participation of the Regional Assemblies, an amended text was presented and to be discussed in future consultations at the state and national level.

The cooperation between National Federal Parliament and the Regional Assemblies of South West, Galmudug and Jubaland State assemblies for the Constitutional Review Process was formalized in February with an MOU establishing the Forum of Somali Parliaments that was adopted and blessed by the President of the Federal Republic. This MoU, which established guiding principles of cooperation and collaboration between the legislative bodies, and continuous information sharing on legal drafting, was the result of a one-week retreat held in Mogadishu with NFP and regional Assemblies, funded by the project, whereby discussions on ongoing constitutional review process, modalities for regional consultations scheduled to take place on member state level, as well as information sharing and cooperation among the legislative bodies.

Option papers for a number of contentious issues, such as Police and Courts, stability measures of the Parliament, and others, have been prepared by UN Experts and submitted to executive and will be presented during the regional consultations, thus providing a platform for discussion and possible agreement to be reached during these consultations at the state level and national level.

In March, the public outreach and general civic education on constitutional review process was launched in Baidoa, with a regional consultation hosted by the Southwest State Administration, organized by the Federal Ministry of Constitutional Affairs that brought together also the Oversight Committee, the Independent Constitutional Review and Implementation Commission, Members of the Federal Parliament. This consultation was funded by the project.

The consultation took place in a 3-day event that included participation of over 200 people, which discussed the background of Somali Constitution review process including the forthcoming consultations at regional and national level on the contentious issues, as well as the amendments proposed to the Constitution. During this event, there were also meetings with selected Members of Parliament of Southwest led by their Speaker, Women, Youth, Religious Leaders, Vulnerable Groups and Business Community.

OUTCOME 2: KEY NATIONAL STAKEHOLDERS WITH CAPACITY STRENGTHENED AND ABLE TO ENGAGE AND COMPLETE THE REVISION

The project provided technical and financial support to the completion of Office Set-up and Technical expertise for the Ministry of Constitutional Affairs, with a renewed and equipped office and 22 advisors working. These advisors support the MoCA and are working in areas such as civic education, amongst others. Similar support continues to be provided to ICRIC and OC.

In Puntland, the Ministry of Constitution, Federal Affairs and Democratization with the objective to disseminate timely information of the constitutional review process has developed a plan for public information plan, and has also developed guidelines for the participation of women and marginalized groups in this process, as well as a comparative analysis on participation of women in Muslim and African countries in similar processes. These important documents have been developed by the Legal Advisor, funded under the project.

Other Key Achievements

Other key achievements of the Joint Programme can be summarized as follows:

- Printing of over 2000 copies of the OC report with revised 10 chapters of the constitution. on what?.
- Formulation and delivery of 9 MoCFAD staff (5M, 4F) training on various topics related to procurement, such as market survey, maintaining supplier's database, tracking suppliers past, amongst others
- Completion of Office and Technical Expertise set-up for MoCA: recruitment of 22 advisors for MOCA completed and their salary funded by the project; renovation of office premises, payment of running costs such as internet, transport and communications; ICT equipment, Office Furniture;
- Hiring of OC 3 support staff: 1 Administrative advisor and 2 legal translators;
- Continued operational support to ICRIC: car rental, communications, office space, accommodation.

Challenges (incl: Delays or Deviations) and Lessons Learnt:

Coincidence with other political processes and events, such as the high level partnership forum and recess period of the National Federal Parliament have required the involvement of constitutional stakeholders and led to the postponement of Regional Consultations.

Peacebuilding impact

The Constitutional Review Process is part of the process for inclusive politics and it will have impact on the peacebuilding and on the political processes ongoing in Somalia, some with direct impact on the upcoming years of Somalia development, such as the electoral process that is taking place in 2016 and will bring a new composition of the parliament and term, as well as.

In the immediate future, this process will be extremely important for the discussions and agreement on a number of contentious issues with the presentation not only of the initial revision of 10 chapters of constitution, but also the option papers on contentious issues, such as police and courts, Revenues Powers and Sharing and other Fiscal Arrangements in a Federal Somalia, Upper House, Status of Mogadishu.

To this extent, the comprehensive national dialogue and agreement on the solution and way forward that these consultations will bring about are crucial for peacebuilding process.

Looking ahead

- **State level consultations and state level civic education** during the months of April and May, envisaged to be held in 4 regions simultaneously and with representatives of MoCA, OC and ICRIC;
- National National Conference to be held at the end of May, in Garowe. The objective will be to representatives from the States and the various stakeholders to discuss the conclusions of the Consultations

and Civic Education events at the State Level. It is expected that a final agreement on the 10 first chapters will be reached and a discussion on the five remaining chapters and contentious issues chapters will take place.

- **Drama Shows** as part of the broader civic education plan, organized by the OC, with the aim of promoting dialogue-based, problem-solving forum of a peace meeting, through poetry, music and and oratorical, given that Somali oral culture is a very powerful tool to promote peace and conflict resolution.
- **Revision of the final text of the constitution**, based also on results and agreement from state level and national consultations.
