

CROSS-CUTTING CAPACITY DEVELOPMENT

For Timor-Leste to meet its obligations under the Rio Conventions it must be able to efficiently and effectively integrate global environmental priorities into planning, decision-making, and reporting processes. The GEF's Cross-Cutting Capacity Development Project assists Timor-Leste in building foundational capacities and information systems for the national Multilateral Environment Agreement (MEA) obligations and to monitor impact and progress.

Development Challenges

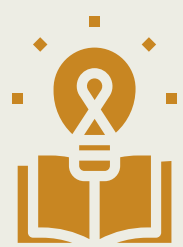

inadequate of coordination among institutions limits planning and implementation of law enforcement and efficient use of resources

Public awareness of environmental issues and protection is low

Education and training levels in environmental protection and management require improvement

Current legal arrangements limit effectiveness and public comprehension

Quick Facts

Project Title

Strengthening Targeted National Capacities to Improve Decision-Making and Mainstreaming Global Environmental Obligations Into National Development Priorities

Duration

2019 – 2022

Government Counterparts

Secretary of State for Environment

Total Budget

\$ 1,650,000

Beneficiaries

300 government officers (Women 40%, Men 60%)

Funded by

SDG alignment

What we have achieved

- 1 Developed 7 Education Module** on environmental sustainable development, policy making, and environmental management on Rio Conventions
- 21 Public Awareness Raising Activities** on Rio Conventions conducted in selected villages of 9 municipalities with over **1,500 individuals** participated
- Supporting the **preparation of the National Adaptation Plan of Timor-Leste** on climate change by having a consultation workshop and validation workshop in 2020
- English language courses** for over **80 participants** in training and awareness-raising activities since 2019. In 2020, 50 participants (75% women) from relevant ministries received six months of English training

Project Map

Voices

I learned a lot about environmental journalism as the training showed us how to environmental issues. So I am confident to write a story on climate changes and increase public awareness of environmental issues. "

Mr. Teotonio Alves Pinto, G-RTV
